PROFESSIONAL SUMMARY

Experienced Full Stack Java Developer with 6+ years in enterprise application development. Proficient in Java/J2EE, Spring, Hibernate, HTML5/CSS3, JavaScript, AngularJS, Node.js, AWS, Docker, CI/CD, and Agile methodologies. Skilled in optimizing performance, improving code quality, and proficient at SDLC across various domains. Seeking to secure a challenging position as a Full Stack Developer.

WORK EXPERIENCE

Comcast, PA - Full Stack Developer

Aug 2022 - Present

- Managed end-to-end (SDLC) with team of 5, from requirements gathering to deployment and customization, ensuring alignment with customer specifications and standards.
- Leveraged Java 11 features including utility methods and local-Variable Syntax for Lambda Parameters, enhancing code efficiency and readability.
- Enhanced communication between databases and business layers by implementing Java 8 technologies including stream API and lambda expressions, which led to an increase in overall program performance.
- Implemented MVC architecture using Spring framework, resulting in an reduction in development time and an increase in code maintainability.
- Designed and developed microservices using Spring Boot, employing a microservices architecture with REST and Apache Kafka message brokers.
- Orchestrated the development of Restful APIs using Spring Boot, emphasizing security through Spring Security integration.
- Employed various technologies including Hibernate for database interaction, AngularJS and Angular for web page development, Node.js for client-server architecture, and JMS for asynchronous data handling.

Publix, FL - Full Stack Developer

Sept 2020 - Nov 2021

- Oversaw all aspects of the Software Development Life Cycle (SDLC), from requirements gathering to deployment, making sure that Java-8 technologies like Stream API and Lambda expressions were seamlessly integrated for optimal efficiency.
- Elastic Java SDK was used to create RESTful services with the Spring Framework and Spring Boot microservices, facilitating effective data retrieval.
- Created and executed HTML5, CSS3, JavaScript, and AngularJS responsive web interfaces with a focus on single-page application (SPA) development.
- Streamlined the EC2, S3, and RDS cloud platform services, installing Docker containers on EC2 servers to host scalable applications.

Verizon, GA - Full Stack Developer

Dec 2019 - Sept 2020

- Spearheaded the design, development, and support phases of SDLC, focusing on Spring MVC architecture for web applications and implementing scalable, RESTful microservices-based back-end using Java and Spring Boot.
- Deployed Spring Boot microservices on Docker containers and EC2 instances on AWS, ensuring simplicity and scalability in deployment.

- Developed user interfaces with HTML5, CSS3, JavaScript, and AngularJS, emphasizing single-page application (SPA) functionality and seamless data synchronization with the server.

Telstra, AU - Java Developer

Jun 2017 – Dec 2019

- Led analysis and design phases in SDLC, ensuring alignment with project objectives and implementing MVC architecture using Spring Framework.
- Utilized Spring's IOC, Dependency Injection, and MVC concepts, along with Hibernate for efficient database access and POJO class creation.
- Facilitated inter-application communication using JMS and developed front-end screens as per user specifications, ensuring adherence to Agile/SCRUM methodologies and team compliance with standards and tool usage.

TECHNICAL SKILLS

Java 11/8/7/6 | PL/SQL | SQL | Core Java | JDBC | JMS | Java Beans | EJB | Tiles | HTML/CSS | XML | DOM | JSON | XPath | AJAX | JavaScript ES5/ES6 | Angular | Node.JS | AWS | Azure | UML | Agile | Waterfall | Spring (IOC, MVC, Boot) | Hibernate | Eclipse | IBM RAD | IBM WebSphere | Apache Tomcat | BEA WebLogic | Oracle 11g/10g/9i | SQL Server | MySQL | MongoDB | Docker | Log4j | Junit | Jenkins | SOAP | REST | Windows | MAC | Linux | UNIX

EDUCATION

University of Illinois, Springfield, IL

Dec 2023

Master of Science in computer science

Jawaharlal Nehru Technological University, Hyderabad, IN

May 2017

Bachelor of Science in computer science
