

ABDUR RAHMAN ABDUL JAMEEL, B.Tech

IT ENGINEER / DATA ANALYST | abdur.techpro@gmail.com | +1 929-615-5686 | [Linkedin](#)

EDUCATION

Master's of Science in Management (MSM) in Computer Science

Feb. 2025 - Current

Mount Vernon Nazarene University, Mount Vernon, OH, USA

Bachelor of Technology in Artificial Intelligence and Data Science

Aug. 2020 - May 2024

BS Abdur Rahman Crescent Institute of Science and Technology, Chennai, India

WORK EXPERIENCE

Data Analytics Intern, The Board of Control of Cricket in India (BCCI) - TN Association, IPL Mar. 2024 - May 2024

- Managed and cleaned large-scale datasets on match stats, fan engagement, and ticket sales using SQL and Excel, ensuring data accuracy and integrity.
- Built real-time dashboards in Tableau and Excel to monitor fan interaction and operational performance during live matches, enhancing decision-making efficiency by 25%.
- Streamlined weekly reports using Python scripts and Excel macros, cutting turnaround time in half.

Data Analyst Intern, TVS - KI Mobility, Chennai, India

Sep. 2023 - Nov. 2023

- Analyzed over 100,000 customer lifecycle and behavioral data points using Python (Pandas) and SQL to identify key trends affecting user retention.
- Developed interactive dashboards using Power BI to visualize operational KPIs, expediting data interpretation by 25%.
- Automated reporting workflows using Python and Excel VBA, reducing manual effort by 85%.

Data Science Intern, KaShiv Infotech, Chennai, India

Jun. 2023 - Jul. 2023

- Conducted data cleaning, feature engineering, and exploratory analysis on diverse datasets using Pandas and NumPy, improving data quality by 40%.
- Designed and fine-tuned classification models (Logistic Regression, SVM) using Scikit-learn, and tuned hyperparameters, enhancing model accuracy by 20%.
- Created visual reports using Seaborn and Matplotlib to present EDA findings to stakeholders, facilitating data-driven decision-making and reducing reporting time by 30%.

PROJECTS

Quantum Machine Learning for DDoS Detection in Cellular Networks

Dec. 2023 - Feb. 2024

[QML | Python | Stream-lit | Django | XGB], BS Abdur Rahman Crescent Institute of Science and Technology, Chennai, India

- Developed machine learning models using Python and XGBoost, analyzing cellular network data to identify DDoS attack patterns with 95% accuracy, enhancing network security protocols and performance.
- Evaluated model performance against traditional methods and aligned outcomes with 6G network security goals.

Medical Data Extraction - Healthcare

Feb 2023 - May 2023

[Python | ML | Fast API | Haskell (Exp)], BS Abdur Rahman Crescent Institute of Science and Technology, Chennai, India

- Built a solution combining OCR (Tesseract) and NLP to extract patient data from scanned images and medical documents.
- Implemented using Python and FastAPI; explored Haskell for functional prototype.

TECHNICAL SKILLS

Programming: Python, SQL, Java, C++, HTML/CSS, Haskell (learning), Scala (beginner)

Artificial Intelligence & Machine Learning: Basic Deep Learning, Neural Networks, Natural Language Processing (NLP), Regression, Classification, SVM, XGBoost

ML Libraries & Tools: Scikit-learn, TensorFlow, Keras, OpenCV

Databases: SQL Server, MySQL, MongoDB, NoSQL, Oracle

Dev Platforms: Linux, Windows, basic AWS (EC2, S3)

Data Analysis & Visualization: Pandas, NumPy, MS Excel, Tableau, Power BI, Seaborn, Matplotlib

Web & Backend Development: Flask, Streamlit, FastAPI, REST APIs

Version Control: Git, GitHub

Other: Jupyter Notebooks, Excel Macros, VS Code, VBA
