

Alekhya Nimmala

Senior Data Engineer

alekhyanimmala523@gmail.com | +1 940-594-2547 | United States | [Linkedin](#)

Professional Summary:

Highly proficient **Data Engineer** with over five years of experience in designing, implementing, and optimizing large-scale **ETL/ELT pipelines**. Skilled in cloud platforms like **Azure, AWS, and GCP**, with expertise in **Snowflake, BigQuery**, and **Databricks**. Adept at leveraging **Python, Spark**, and **T-SQL** for building robust **data warehousing** and real-time analytics solutions. Proven ability to automate **CI/CD pipelines** and implement **data governance** while ensuring data integrity and optimizing performance. Experienced in Agile environments, creating insightful reports with **Tableau** and **Power BI**, and mentoring junior engineers.

Education:

University of North Texas | Master's Information Science

Technical Skills

ETL Tools: SSIS, Azure Data Factory, Informatica Power Center, IICS, AWS Glue

Programming Skills: SQL, Java, Python (NumPy, Pandas, PyTorch, TensorFlow, etc.), PySpark, Spark SQL, R, Linux.

Cloud Tools: Azure Data Factory, Azure Databricks, Azure Blob Storage, Azure Data Lake Storage Gen 2, Delta Lake, Azure Synapse Analytics, Azure Stream Analytics, Azure SQL Database, Azure SQL Server, Azure Monitor, Azure Event Hubs, Azure DevOps, AWS (EC2, S3, DynamoDB, Redshift), AWS Glue, Google Cloud Platform (Dataproc, Cloud Storage, BigQuery, Big Table, Cloud SQL, Cloud Spanner)

Databases: Microsoft SQL Server, MySQL, Azure SQL Database, Snowflake (cloud), Oracle SQL, NoSQL, MongoDB, Neo4j, PostgreSQL

Reporting and Visualization: Tableau, Power BI, SSRS

Platforms/Tools: Apache Spark, SSMS, Jupyter Notebook, Databricks, Visual Studio, Postman (if applicable), Pycharm, Eclipse, IntelliJ.

Methodologies: Agile (Scrum, Kanban).

Core Competencies: Data Warehouse, Data Mining, Data Modeling, Data Pre-processing, Data Cleaning & Extraction, Data Transformation, Data Modeling, Data analysis, Machine Learning, NLP, Predictive & Statistical Analysis, Cloud Computing, Data Visualization, Data Structures and Algorithms, ETL/ELT Workflows, Data Governance, Performance Optimization, Data Integration

Professional Experience:

Santander - Dallas, Texas | Jul 2024 – Present

Senior Data Engineer

- **Designed and implemented** scalable **ETL/ELT pipelines** using **Azure Databricks**, successfully leading a **DB2 to Snowflake data migration** that improved transfer efficiency by 22%.
- **Optimized Snowflake SQL queries** and **Snowproc** for enhanced performance and scalability.
- Implemented robust **data governance** using **IAM (Identity and Access Management)** and **Unity Catalog** and built **dbt models** for advanced analytics and **testing frameworks** to ensure data integrity.
- **Automated CI/CD pipelines** with **Azure DevOps** and led initiatives for **cloud cost optimization**.

- Developed **Azure Stream Analytics Jobs** for **real-time data ingestion** and engineered **Star Schema data warehouses** to support reporting via **Power BI** and **Tableau**.
- Mentored junior engineers, conducted thorough **code reviews**, and collaborated cross-functionally in an **Agile Scrum environment** to deliver high-quality data solutions.

Ben E.Keith, Dallas, TX | May 2023 – Jun 2024

Data Engineer

- Led a **Teradata to Snowflake data migration**, designing and implementing **ETL/ELT pipelines** using **Apache Spark (PySpark)** on **AWS EMR** and **AWS Glue** for **terabyte-scale (TB)** data processing.
- Developed robust **data ingestion pipelines** into **Snowflake** leveraging **AWS Data Pipeline** or **Snowpipe** for real-time data, optimizing data transfer with **AWS S3**, **Glue**, and **Redshift**.
- Implemented comprehensive job orchestration and scheduling with **Apache Airflow** and **AWS Step Functions**, and automated **CI/CD pipelines** for **dbt projects** using **GitHub Actions** and **dbt Cloud**.
- Designed and automated **data quality checks** and validation using **Apache NiFi** and **AWS Glue DataBrew**, creating custom **dbt macros** and documentation for enhanced data integrity and transparency.
- Deployed and managed financial data solutions on **AWS** leveraging **Lambda functions** and **CloudFormation/Terraform** for **Infrastructure-as-Code**, while developing **Kafka Connect** or **CloudWatch** based monitoring systems.
- Proficient in **SDLC (Agile Scrum/Waterfall)**, skilled in building **data pipelines for credit risk assessment**, and creating financial reports/dashboards with **Tableau** or **Power BI**.

Medreich Limited - Bangalore, India | Mar 2020 – Dec 2022

Associate Data Engineer

- Led a **strategic cloud migration** to **Google Cloud Platform (GCP)**, transitioning on-premises infrastructure and data platforms to improve scalability and reduce overhead.
- Engineered a high-performance **GCP data warehouse** using **BigQuery**, **BigTable**, **Cloud SQL**, and **Dataproc**, significantly enhancing data accessibility.
- Successfully migrated **5,400 Informatica PowerCenter workflows** to **IICS** and **20,000 Teradata tables** to **Google BigQuery**, resulting in substantial cost savings.
- Optimized **ETL processes** by designing complex **IICS Task flows and Mappings** to streamline data ingestion from diverse sources.
- Architected scalable and efficient cloud data platforms to meet business requirements and implemented robust **CI/CD pipelines** while modernizing **UNIX shell scripts** to improve automation and efficiency.

Certifications

Databricks Certified Data Engineer Associate
