SUMMARY

Data-focused professional with a Bachelor's in Radiologic Science and recent certification in Data Analytics using Python, SQL, and Tableau. Over 10 years in healthcare imaging, specializing in data reconciliation, workflow optimization, and QA/QC analysis to ensure accurate datasets and process improvements. Proficient in Python for scripting and data manipulation, SQL for querying, and tools like Pandas and Tableau for exploratory analysis and visualization. Experienced in translating business needs into actionable insights through data cleaning, modeling, and reporting. Seeking a junior Data Analyst or Software Developer role to apply skills in advanced analytics, supporting strategic initiatives.

SKILLS

Data Analysis & Tools: SQL querying/joins; Python scripting/data manipulation (Pandas, NumPy, Matplotlib, Geopandas); Tableau dashboards/visualization; Exploratory data analysis/cleaning/feature engineering; Descriptive statistics/trend analysis

Technical & Programming: Git/GitHub; Jupyter Notebook/Visual Studio Code; SQLite databases; Docker/Orthanc for testing; Network troubleshooting

Healthcare & Domain: Medical/radiology terminology; DICOM/PACS data handling/reconciliation; QA/QC audits; Radiation safety/compliance; Epic Radiant EMR

Soft Skills: Team collaboration/problem-solving; Effective communication with stakeholders; Detail-oriented/multi-tasking; Process improvement

EXPERIENCE

- | | |
|--|----------------|
| CT Technologist – CommonSpirit Healthcare | 2025 - Present |
| <ul style="list-style-type: none">Performed diagnostic CT procedures, optimizing workflows in Epic Radiant for high-quality datasets.Reconciled imaging studies, cleaning metadata discrepancies (e.g., MRN/Accession) to maintain integrity. | |
| 3D Post-Processing Technologist – 3DR Labs | 2017 - 2024 |
| <ul style="list-style-type: none">Conducted data annotation/segmentation for CT/MRI, using tools like Visage/TeraRecon for precise modeling. | |

- Streamlined workflows with innovative solutions, reducing turnaround by 25% via data-driven optimizations.
- Performed QA/QC audits on datasets, evaluating metrics and ensuring DICOM compliance.
- Coordinated with IT on updates and trained staff, promoting reproducible data processes.

Radiologic/CT Technologist – Jewish Hospital

2014 - 2017

- Operated advanced imaging systems to produce diagnostic CT scans and X-rays, maintaining equipment and performing routine QA checks.
- Collaborated with healthcare teams to develop imaging strategies, troubleshoot PACS issues, and deliver high-quality patient care in a fast-paced environment.
- Assisted in vendor evaluations and system implementations, contributing to improved data flow and supporting QA/QC programs.

EDUCATION

Data Analytics with Python/SQL/Tableau

2025

- CodeYou

Bachelor of Science in Radiologic Science

2019 - 2021

- Midwestern State University (Completed while working full-time)

CERTIFICATIONS

ARRT Registered Technologist (R)(CT)

Current

- American Registry of Radiologic Technologists

PROJECT

Poultry Analytics Capstone

- Analyzed U.S. egg production/prices (2016-2021) using Python/Pandas for data cleaning/feature engineering and Matplotlib/Geopandas for visualizations (line plots, bar charts, maps).
- Built SQLite database for storage/queries/joins; performed exploratory analysis on trends, seasonality, and state rankings.
- Created interactive Tableau dashboard for ad-hoc exploration, providing insights for poultry stakeholders.
