EDUCATION & CERTIFICATES

- **Data Analytics**, University of South Florida
- **SQL Essential Training**, LinkedIn Learning
- **Excel: Advanced Formulas and Functions**, LinkedIn Learning
- **Data Visualization: Tableau for Beginners**, LinkedIn Learning
- **Python for Data Science Essential Training**, LinkedIn Learning

AMELIA MCGRAW

HELLO!

I'm transitioning into data analytics after several years in the healthcare field, where I developed a strong attention to detail, problem-solving skills, and the ability to work with sensitive data. After earning my Data Analytics certificate from the University of South Florida, I built a solid foundation in SQL, Python, Excel, and data visualization tools like Tableau. I enjoy cleaning and organizing data, spotting trends, and turning complex information into something clear and actionable.

I'm actively looking for an entry-level (remote or hybrid) role where I can continue growing my skills, gain hands-on experience, and contribute to a team that values curiosity, collaboration, and data-driven decisions. I'm excited to bring my unique background, work ethic, and fresh perspective into a new career I'm genuinely passionate about.
