

ANIRUDH YALLAPRAGADA

Full-Stack Software Engineer

📞 708-890-3844 | ✉️ aniyallapragada56@gmail.com | 🔗 linkedin.com/in/ayawe | 🌐 anirudh-yallapragada.vercel.app | 🐙 github.com/anirudh-56

EDUCATION

University of Illinois at Chicago (UIC)

Chicago, IL

Bachelor of Science in Computer Science

Expected May 2026

Master of Science in Computer Science

Expected May 2028

Relevant Coursework: Artificial Intelligence, Mobile Development, Systems Programming, Database Systems, Web Security

TECHNICAL SKILLS

Languages: Java, JavaScript/TypeScript, Python, SQL, C/C++

Full-Stack: React, Springboot, Node.js/Express, REST APIs, HTML/CSS

Data & Cloud: Docker, PostgreSQL/MySQL, SQLite, Firebase, Git, CI/CD (Azure DevOps)

Testing & AI: Playwright, Selenium, LLM integration, Realtime, Whisper STT, TTS

Experience

Software Engineering Intern | Walgreens

June 2025 – August 2025

- Built CI/CD-integrated Playwright end-to-end tests validating core user workflows across browsers, reducing test execution time by $\approx 25\%$
- Automated frontend flows backed by live backend data (search, filtering), detecting regressions introduced by UI or service changes
- Refined stories and system workflows across Agile sprints in response to evolving interactions

Research Engineer – AI Tutoring Systems | UIC

August 2025 – Current

- Designed and implemented a **real-time AI tutoring system** for the Temi robot, exercised across 200+ hours of live conversational sessions using LLMs
- Engineered a low-latency conversation orchestration pipeline integrating streaming STT, LLM response generation, and TTS, evaluating multiple speech recognition backends to guide system-level design decisions

Teaching Assistant | UIC

January 2025 - Current

- Working as a teaching assistant CS 342: Software Design, focusing on Java development, full-stack programming, and JavaFX for interactive GUI design
- Facilitating office hours to help individual students, providing guidance on designing software and debugging techniques

PROJECTS

ClassGPT | Spring Boot, React, PostgreSQL, REST APIs, Docker, LLM Integration

December 2025

- Built a **full-stack** class discussion platform using **Spring Boot & React**, integrating an **LLM RAG system** and managing core workflows including authentication, enrollment, & content delivery
- Owned the end-to-end architecture, defining API contracts, database schema, and a role-based access control (RBAC) model to ensure scalability and secure moderation

ArtExpo | React, Node.js (Express), REST API, SQLite/MySQL, CSS

April 2025

- Designed and built a **full-stack web platform** for managing virtual art exhibitions, including authentication, exhibitions, artworks, and ticketing
- Owned backend API development in **Node.js/Express** & frontend implementation in **React**, supporting browsing, scheduling, & ticketing workflows
