SUMMARY

Business analytics professional with 4+ years of expertise in providing data backed solutions to business and technology problems. Proven ability to lead and manage projects, collaborate with stakeholders, and deliver results. Expertise in Scrum product ownership, Agile project management, data analysis and visualization.

PROFESSIONAL EXPERIENCE

Business Technology Solutions Associate, CA

Jul 2022- Jul 2023

ZS Associates

Managed project deliverables, stakeholder communications, and risk mitigation strategies

- Collaborated with business & tech teams to identify customer needs, define tech requirements, and translate them into analytical solutions with documented delivery risks and mitigations
- Facilitated strategy alignment among 30+ senior stakeholders from two client organizations through effective presentation of data and solutions, resulting in the development of an integration roadmap
- Collected feedback on new enhancements and features for retrospective planning for 20+ sprint cycles
- Led an IT transformation project with a team of 10 DevOps engineers, facilitating scrum activities
- Implemented agile project management and Jira updates for a data analyst team for streamlined workflows.
- Balanced the demands of Scrum-based Product Owner responsibilities, defining and prioritizing backlog items to meet business goals and address customer needs.

Data Analyst, India

Apr 2019 - Jun 2021

Gupta Arun & Co.

Conducted KPI, metric tracking and visualizations for partners and senior execs in the accounting firm

- Designed and created Tableau based dashboards to monitor weekly & monthly business reviews
- Automated data dashboards and multiple data reports for rhythm of business monitoring
- Led a project to implement automated emails using excel macros and reduced the late filling of personal taxes by 28% YoY

Marketing Analyst, India

May 2018 - Mar 2019

A.K. Study Center

Statistically analyzed data and identified the right media spend allocation for ROI

- Proactively compared media spends to ROI using regression & Anova and reallocated the media budgets
- Increased ROI to 3.4X from 2X by reallocating ad budgets, and reduced the CoCA by 29% YoY
- Analyzed customer lead data forms to create a correlation between variables and lead conversion
