SUMMARY

I am a young systems analyst and developer with a strong passion for software design, data structures, and languages, including musical language. I have solid theoretical and practical knowledge of multiple programming languages, frameworks, design patterns, best practices, and data structures.

Additionally, I am experienced with several database engines such as MySQL/MariaDB, PostgreSQL, SQLite, and MongoDB.

TECHNICAL SKILLS

- | | | |
|--------------|-----------|--------------|
| • C++ | • HTML | • PHP |
| • JavaScript | • CSS | • Node.js |
| • Python | • Angular | • TypeScript |
| • SQL | • React | • C# |

DEVELOPED PROJECTS

Enterprise Management System

I developed a business management and administration system aimed at small cooperative companies and SMEs. This system was also designed for event management and organization, targeting cultural cooperative organizations dedicated to event creation.

Technologies Used: JavaScript, Node.js, Express, React, SQLite, React Router, REST API, HTML, CSS, JWT, Web Components, UML.

Lariat

Lariat is a game that fuses the classic Tic-Tac-Toe with another classic, Tank Wars. It was developed using the raylib library as part of a learning and exploration process in video game development.

Technologies Used: Raylib, C, C++.

WORK EXPERIENCE

- | | |
|------------------------------------|-------------|
| • PizzaFree, General Operator. | 2022 - 2023 |
| • Freelance, Full Stack Developer. | 2023 - 2024 |

EDUCATIONAL BACKGROUND

- | | |
|---|-------------|
| • ISFT №151, Higher Technical Degree in Systems Analysis. | 2023 - 2025 |
|---|-------------|

PROFESSIONAL DEVELOPMENT

- | | |
|--|------|
| • Argentina Programa 4.0, Web Development. | 2020 |
| • Argentina programa 4.0, Mobile Software Development. | 2021 |
