CERTIFICATIONS & TECHNICAL SKILLS

Certifications: CompTIA Network+ - CompTIA Security+ - ISC2 CC - Google Cybersecurity Professional

Skills: Active Directory Admin - MFA (DUO/Microsoft Auth) - M365 - SIEM (Splunk, Wazuh) - Security & Network Monitoring - Security Awareness - Wireshark - Metasploit - PowerShell - Python - HTML - Linux - Windows - macOS

EXPERIENCE

Help Desk Technician | Oct 2025 – Present
Salem Regional Medical Center, Salem, OH

- Resolved ~99% of tickets within 15 minutes at first contact while handling ~100 daily incidents in a high-volume healthcare environment.
- Provided rapid support for **Active Directory**, **MFA (DUO)**, **M365**, **networking**, and medical applications across multiple hospital locations.
- Identified, documented, and escalated phishing and vishing attempts, contributing to organizational **security awareness**.

Tier 1 IT Help Desk Analyst | Jan 2025 – May 2025
The University of Akron, Akron, OH

- Resolved 30–100 technical issues weekly for 15,000+ users (hardware, software, account access, MFA, etc.)
- Contributed to a team environment to answer calls, tickets, and emails regarding issues including **Microsoft Authenticator**, **Mac/iOS**, and **Windows 10/11** while making detailed documentation.

PROJECTS

TryHackMe SOC Simulator

- Triaged and investigated **SIEM** alerts in a simulated SOC environment, including an Analyst VM, distinguishing between false positives and true positives based on log evidence and threat context.
- Analyzed authentication, endpoint, and network logs to identify, validate, and correlate IoC across multiple data sources.

Threat Hunting SIEM Environment

- Developed SIEM-based threat hunting framework using **Splunk MLTK**, analyzing 7,500 logs and identifying 750 anomalies while performing log correlation and intrusion detection using MITRE ATT&CK.
- Automated threat response with custom **Bash/Python** scripts and **Metasploit** with IoC feeds (AlienVault OTX).

EDUCATION

The University of Akron | May 2025

B.S in Computer Information Systems: Cybersecurity | GPA: 3.5/4.0

Relevant Courses: Intrusion Detection - Network Forensics II - Computer Forensic Methods II - Cyber Warfare - Network Authentication and Security
