

VASANTHA ARJUNAN

Data Analyst

Omaha, NE | +1(402) 213-2086 | vasantharju@gmail.com | linkedin.com/in/vasantharam11 | datascienceportfol.io/vasantharju

PROFESSIONAL SUMMARY

Results-oriented Data Analyst with hands-on experience in Power BI, SQL, Tableau, Excel, and Python. Proven ability to build interactive dashboards, automate KPI reporting, and translate complex datasets into clear business insights. Adept at data cleaning, ETL workflows, and DAX-based data modeling. Seeking a data analyst role where I can drive data-informed decisions for a dynamic organization.

WORK EXPERIENCE

Data Analyst | RR IT Solutions – Chennai

Jan 2025 – Dec 2025

- Worked as Data Analyst for RR IT Solutions, contributing to organizational objectives through data-driven reporting and analysis
- Built and maintained Power BI dashboards with DAX measures and Power Query ETL pipelines to support business reporting needs
- Applied SQL (CTEs, subqueries, aggregations) to extract, validate, and analyze datasets for stakeholder decision-making
- Recognized for professionalism, reliability, and strong contribution to team objectives and company growth

PROJECTS

Bank Loan Report Dashboard

Power BI · SQL · Excel

- Analyzed 20K+ loan records to monitor approval rates, customer demographics, and credit risk indicators
- Built interactive Power BI dashboards with 10+ KPIs including approval rate, default risk score, and loan-to-income ratio
- Used SQL CTEs and aggregations to identify high-risk customer segments, surfacing insights that informed management strategy
- Reduced manual reporting time by consolidating data from 3 sources into a single automated Power Query pipeline

Bike Store Sales Analysis

Power BI

- Cleaned and modeled sales and customer data across 5 product categories and 2 years of transactions
- Created revenue trend dashboards and top-product KPIs, enabling targeted inventory planning decisions
- Highlighted seasonal sales patterns that identified a 22% revenue dip window, providing actionable restocking guidance

Electric Vehicle (EV) Adoption Analysis

Tableau · SQL · Power BI · Excel

- Cleaned and standardized 80K+ EV registration records using Excel and Power Query
- Queried adoption metrics by state, manufacturer, and model year using SQL to surface key market trends
- Built dual dashboards in both Power BI and Tableau, showcasing multi-tool proficiency for stakeholder presentations

TECHNICAL SKILLS

Business Intelligence: Power BI, Tableau

Power BI Expertise: DAX, Data Modeling, Power Query, ETL

SQL & Databases: Joins, Subqueries, CTEs, Aggregations

Excel: Pivot Tables, VLOOKUP/XLOOKUP, Power Query, Advanced Formulas

Programming: Python (Pandas, NumPy, Matplotlib)

Core Skills: Data Cleaning, Data Transformation, Dashboard Development, KPI Reporting

CERTIFICATIONS

- Certificate in Data Analytics (Bootcamp) – Besant Technologies, Jun 2024

- Power BI Job Simulation – PwC Switzerland (Forage), Mar 2025
- Data Visualisation: Empowering Business with Effective Insights – Tata Consultancy Services (TCS), Nov 2025
