SUMMARY

Data Engineer with mid-level experience designing scalable data pipelines and cloud-based analytics solutions. Delivered a 30% reduction in data onboarding time and real-time Tableau dashboards at KCC Capital Partners by automating ETL workflows in Azure Data Factory and Databricks. Skilled in Python, SQL, PySpark, and Azure services to build reliable data platforms and support enterprise reporting. Seeking to apply this expertise to enable data-driven decision-making and accelerate business insights.

SKILLS & CERTIFICATIONS

- **Data Visualization:** Microsoft Excel, PowerPoint, Power BI, Tableau, Alteryx, SAS, Google Sheets, Matplotlib, Seaborn.
- **Data Analysis:** Python, SQL, MySQL, Exploratory Data Analysis, Statistical Analysis, A/B Testing, Root Cause Analysis, Data Querying.
- **Data Modeling:** Relational Databases, Star Schema, Snowflake Schema, Data Modeling, KPI & Metric Development.
- **Programming:** Python, SQL, PySpark, Shell Scripting, R (Basic), Pandas, NumPy, Scikit-learn, Linux.
- **Data Engineering:** Azure Data Factory, Azure Databricks, Azure Data Lake Storage (ADLS Gen2), Azure SQL Database, Pyspark, Apache Spark, Apache Kafka, Apache Airflow, Delta Lake, Data Build Tool, ETL/ELT Pipelines, Data Integration, Incremental Loading, Medallion Architecture, Parquet, NoSQL DB, Workflow Automation, CI/CD Pipelines, Data Pipelines.
- **Adv-Analytics & ML:** Hypothesis Testing, Predictive Analytics, ML Fundamentals, Model Evaluation, Forecasting Techniques, Inferential Modeling, Quantitative Techniques.
- **Gen-AI & LLM's:** AI Workflows, Prompt Engineering, RAG, LLM Evaluation, NLP Fundamentals, OpenAI, Transformer-based Models.
- **Cloud & Big Data:** Microsoft Azure, Google Cloud Platform, AWS, Databricks, Apache Spark, Data Lakehouse Architecture, Hadoop, Distributed Computing Systems.
- **Core Skills:** Excel, Power BI, Python, MySQL, Pyspark, Databricks, ADF, Azure SQLDB, ETL Pipelines, Fast-paced learning.
- **Soft Skills:** Communication, Presentation, Organization, Teamwork, Report Writing, Problem Solving, Adaptability, KYC/AML.
- **Language Proficiency:** English – Full Professional Proficiency.
- **Certifications:** Data Analytics Bootcamp, AWS ECS, SQL Programming, Python for Data Science, Advanced SQL, Google Analytics, Power BI Data Analyst Associate, Become a Data Analyst, Azure Data Factory and Azure Spark Databricks.

EDUCATION

University of New Haven, Tagliatela College of Engineering

Aug 2024 - May 2026

Master of Science, Data Science (GPA: 3.64/4.00)

- **Coursework:** Introduction to Python programming, Mathematics for Data Scientists, Introduction to Data Science, Distribution and Scalable Data Engineering, Machine Learning, Introduction to Artificial Intelligence, Deep Learning, Natural Language Processing, Bayesian Data Analysis, Leadership & Entrepreneurism

PROFESSIONAL EXPERIENCE

KCC CAPITAL PARTNERS | *Data Science Associate*

Oct 2025 - Mar 2026

- Collected, cleaned, and analyzed structured and unstructured company, market, and transaction datasets using SQL and Databricks, leveraging distributed computing systems to enable more accurate downstream modeling for investment decisions.
- Improved inferential modeling, statistical models, and machine-learning algorithms with transformer-based techniques in Azure, increasing identification of strategic and financial buyers for mandates by boosting prediction accuracy.
- Built and maintained Tableau dashboards and automated reporting pipelines in Databricks, delivering real-time performance metrics to internal stakeholders and clients.
- Assisted in integrating external market feeds and financial databases into Azure analytics workflows, reducing data onboarding time by 30% and improving data availability for the team.
- Translated complex business questions into SQL queries on Databricks, generating insights that guided investment decisions.

SKYIT SERVICES | *BusinessAnalyst Intern*

Sep 2024 - Sep 2025

- Improved business strategies for networking events by analyzing client data in Tableau, leveraging marketing analytics techniques to increase client engagement.
- Reviewed prospect information in Azure SQL Database and engaged leads with targeted outreach, identifying new business opportunities.
- Assisted in sourcing and drafting proposals with advanced SQL queries on Azure SQL Database to extract client data, enabling the team to create targeted business proposals.
- Monitored market trends with Python and Azure Databricks, and delivered recommendations that helped leadership prioritize strategic initiatives.

PANTECH SOLUTIONS | *AI and Data Science Intern*

Jan 2024 - Jun 2024

- Analyzed data using Python and Excel, performed data cleaning, preprocessing, and exploratory analysis, resulting in a clean dataset ready for downstream modeling.
- Designed and refined Power BI dashboards that delivered key business insights and performance metrics to stakeholders.
- Built Tableau dashboards that analyzed and compared sales trends, growth rates, and functional performance across regions, helping identify regional growth opportunities.
- Implemented machine learning models with NumPy and transformer-based techniques for prognostic analysis and performance evaluation in Linux environments, improving prediction accuracy for key metrics.
