

## **EDUCATION**

---

**University of Central Oklahoma** | Bachelor of Business Administration & Legal Studies

## **EXPERIENCE**

---

### **Business Analyst I**

Apr. 2023 - Present

University of Central Oklahoma | Edmond, OK

- Organizing meetings with stakeholders to provide updates, gather feedback, and communicate risks, leading to a 10% increase in meeting project deadlines
- Implementing process improvements and automated changes, resulting in 60% reduction in redundant work to design and manage degree catalogs
- Collaborating with 5+ departments across the university in evaluating system requirements to help develop a new CRM & Student Management System
- Documenting 10+ user guides, requirement manuals, and training documents to facilitate a smooth transition to the new systems

### **Patient Access Specialist**

Mar. 2022 – May 2023

Oklahoma Heart Hospital | Oklahoma City, OK

- Registered 30+ patients each shift, verified and cross-checked each aspect of insurance and patient record for accurate billing and compliance reporting
- Created manuals for training new hires on daily processes, Insurance verifications, and handling patient information leading to 25% increase in productivity from day 1
- Cross-trained in Radiology, ER, Cardiac Rehab, and Lab to facilitate registrations
- Streamlined the scheduling process for next day patients which led to a 15% increase in on-time arrivals and reduced the number of “no-show” patients

### **Legal Assistant**

Jan. 2022 – Feb. 2022

Cheek and Falcone, PLLC | Oklahoma City, OK

- Performed legal research for all attorneys and helped build the case file for our clients
- Reviewed confidential material pertaining to ongoing lawsuits, indexed each document, and maintained all records
- Acted as a liaison between the courts and the law firm for all communication and ensuring timely responses for all active lawsuits

### **Patient Access Specialist**

Feb. 2020 – Jan 2022

Oklahoma Heart Hospital | Oklahoma City, OK

- Registered 30+ patients each shift, verified and cross-checked each aspect of insurance and patient record for accurate billing and compliance reporting
- Created manuals for training new hires on daily processes, Insurance verifications, and handling patient information leading to 25% increase in productivity from day 1
- Cross-trained in Radiology, ER, Cardiac Rehab, and Lab to facilitate registrations
- Streamlined the scheduling process for next day patients which led to a 15% increase in on-time arrivals and reduced the number of “no-show” patients
