SKILLS

Technical: SQL (MS SQL Server, Oracle), Sales Force, Excel (Advanced), Tableau, Gong , Power BI, VBA

Operations: Procurement (PR/PO), Process Improvement, Documentation, SOP Development, QA, Compliance

Business: Stakeholder Management, Cross-Functional Leadership, Reporting Automation, Forecasting, Metrics Development

Other: Data Visualization, Understand KPI , Change Management, Communication & Presentation

EDUCATION

Salem University – New York, NY

Oct 2011 - July 2015

BS in International Relations & Business

EXPERIENCE

NYC School Construction Authority – New York, NY

August 2023 – Present

Business Operation & Data Analysis

- **Reduced monthly reporting errors by 15%** by redesigning the Bid & Award data validation workflow: implemented SQL-based quality checks, standardized documentation across project managers, and established a consistent review cadence aligned with procurement deadlines.
- **Improved executive decision-making efficiency by 20%** by building automated Tableau dashboards that consolidated contract cycle times, MWLBE utilization, and procurement KPIs, eliminating the need for multiple manual reports and enabling real-time leadership visibility.
- **Increased MWLBE vendor participation by 25%** by performing utilization analyses, identifying underrepresented categories, and presenting insights used to adjust outreach strategies and funding distribution.
- **Accelerated internal system processing speed by 30%** by diagnosing SQL-based performance bottlenecks with IT and restructuring data workflows, improving system reliability for 10+ business units.
- **Streamlined Purchase requisition /purchase order acquisition and documentation workflows** by creating standardized templates, updating naming conventions, and mapping end-to-end procurement processes, reducing back-and-forth clarification cycles with project teams.
- **Enhanced cross-functional coordination** by leading recurring stakeholder briefings where procurement, IT, operations, and compliance teams aligned on deliverables and corrected data discrepancies in real time.
- **Created executive-facing presentations and procurement insights** that translated complex SQL outputs into visual narratives for senior leadership, supporting decisions involving contracts, budget allocations, and vendor performance.

Silver Mirror – New York, NY

July 2019 – August 2023

Senior Operations and performance Analyst

- **Drove consistent 50% year-over-year revenue growth** by designing and refining operational strategies with directors, leveraging SQL insights to target high value customer segments and optimize sales programs.
- **Increased product profitability by 20%** by developing SQL-based performance reports that identified margin trends, underperforming services, and pricing inefficiencies, informing new pricing and promotional strategies.
- **Boosted premium product sales by 40%** by creating and managing a monthly performance challenge grounded in data-backed KPIs, motivating staff and improving upsell effectiveness.
- **Reduced excess inventory by 35%** by building Power BI dashboards that surfaced purchase-to-sales discrepancies and guided smarter inventory planning across multiple locations.
- **Supported opening of a new company location** by synthesizing customer trends, financial performance models, and market data for investor presentations that secured buy in and resource approvals.
- **Managed digital operations and marketing analytics**, including social media performance, customer journey insights, and AI-driven content experiments that increased brand visibility and new customer acquisition.

Client Health Access – New York, NY

Nov 2017 – March 2018

Program Operation Lead

- **Improved reporting accuracy and speed** by partnering with developers to design a mobile-friendly campaign tracking application, enabling real-time field data uploads and reducing manual reconciliation efforts.
- **Expanded community engagement reach** by planning and coordinating outreach events across rural communities, structuring end-to-end logistics, and ensuring consistent delivery of program materials to field teams and partners.

•**Strengthened campaign strategy** by developing data-driven reports that tracked engagement trends and informed leadership decisions.

PROJECTS

- **Elevated sales by 40%** by cleaning and analyzing a large multi-product dataset in Excel, identifying underperforming SKUs, and building corrective sales action plans.
- **Achieved 95% forecasting accuracy** using SQL-based predictive modeling techniques to forecast quarterly revenue, helping leadership anticipate staffing and inventory needs.
- **Improved organizational reporting accuracy by 60%** by designing demographic-based Tableau dashboards and automating calculations, saving the analytics team 20 hours weekly for higher-level strategy.
