📍 Austin, TX

ABOUT ME

Detail-oriented analyst with expertise in Python, SQL, and data visualization. Skilled in uncovering insights through advanced analytics and machine learning. Proven track record of delivering actionable solutions in fast-paced, collaborative environments.

EDUCATION

University of Texas at Austin | August 2022 – May 2024

Master of Science (MS), Data Science - GPA: 3.6

Relevant Courses: Data Structures & Algorithms, Data Visualization, Machine Learning (ML), Deep Learning, Regression, Advanced Predictive Modeling, Probability, Optimization, Natural Language Processing (NLP)

Lahore University of Management Sciences - LUMS | August 2015 – June 2019

Bachelor of Science (BS), Mathematics – GPA: 3.31 Minor: Computer Science

Relevant Courses: Data Structures, Algorithms, Programming, Artificial Intelligence (AI), Calculus I, II, III, Analysis, Probability, Statistics, Linear Algebra, Differential Equations, Operations Research, Management Science, Finance

WORK EXPERIENCE

Eplanet Global Ltd. | September 2024 - Present

Junior AI Data Analyst

- Designed and deployed an AI-powered virtual assistant used by 1,000+ daily users to match with local Internet Service Providers
- Built a Retrieval-Augmented Generation (RAG) pipeline using Langchain to enhance contextual accuracy of LLM responses
- Improved query resolution speed by 40% and user satisfaction to over 85% through optimized data extraction from databases and web sources

Under Armour | March 2020 - Present

Stock Lead - Retail | March 2024 - Present

- Lead and delegate tasks to a team of 5+ associates, ensuring efficient processing of 10,000+ freight units weekly
- Streamlined inventory workflows, increasing productivity to 80 units per hour (UPH) and improving overall operational efficiency
- Optimized floor replenishment strategies, contributing to a 7% revenue increase and accelerated product turnover
- Oversee stockroom operations, maintaining organization and accuracy for 40,000+ inventory units

Sales & Stock Associate – Retail | March 2020 - March 2024

- Managed incoming inventory at 70 UPH, supporting timely stock availability and reducing processing delays
- Restocked sales floor to improve product visibility and customer satisfaction, driving an increase of \$2,000+ in daily average sales
- Honored as Most Valuable Teammate (April 2021) for outstanding performance and cross-functional collaboration among 50+ team members

Lahore University of Management Sciences - LUMS | January 2019 - May 2019

Teaching Assistant - Mathematics of Finance

- Evaluated and graded weekly assignments for a cohort of 100+ students, ensuring consistency and academic integrity
- Provided individual and group support, resulting in a measurable 5% increase in the overall class average
- Facilitated understanding of complex financial and mathematical concepts, enhancing student engagement and performance

SKILLS

- | | | | |
|-----------|-----------|--------------------|-----------------------|
| • Python | • Matlab | • CSS | • Critical Thinking |
| • R | • Excel | • Javascript | • Problem Solving |
| • SQL | • PowerBI | • Google Analytics | • Teamwork |
| • Tableau | • SAS | • SAS | • Time Management |
| • C++ | • HTML | • AWS | • Attention to Detail |

ACADEMIC PROJECTS

Vision Based Driving Agent in SuperTuxKart (Python)

- Trained a CNN on 6,000+ gameplay images; applied object detection and reinforcement learning using TensorFlow and PyTorch

Boggle Game Development (Python)

- Built an interactive word game with recursive word extraction via trie, improving validation speed 3×

Temperature Forecasting in Dallas (R)

- Forecasted 5-year daily averages using SARIMA; analyzed 25 years of time series climate data

School Enrolment Levels in Pakistan (R)

- Explored correlations between enrollment and infrastructure using geospatial data visualized in ggplot2 and Shiny

Handwritten Digit Recognition (Python)

- Developed ML model using Scikit-learn to classify digits from 10,000+ images; implemented hidden layers and decision trees

PERSONAL DEVELOPMENT

Coursera (MOOC Platform):

- Amazon Web Services Fundamentals (Specialization) – **Amazon**
- Data Science Math Skills – **Duke University**
- Introduction to Data Analysis using Excel – **Rice University**
- SQL for Data Science – **UC Davis**

Udemy (MOOC Platform):

- Business Analysis Fundamentals by The BA Guide
- Tableau 2020 A-Z: Hands-On Tableau Training for Data Science by Super Data Science Team
- Tableau 20 Advanced Training: Master Tableau in Data Science by Super Data Science Team

Google Analytics Academy (MOOC Platform):

- Google Analytics for Beginners
- Advanced Google Analytics

HONORS & AWARDS

- **1st Place Winner** in 5+ national and international mathematics competitions, including the **International Math Olympiad** (2008–2015)
- **Champion in 10+ varsity-level soccer tournaments**, including the Challenge Cup and Regional Championships (2013–2023)
