Profile

Dynamic Salesforce Developer and Administrator with 3+ years of experience transforming complex processes. Transitioned from dental care to Salesforce technology by designing and deploying 4 Lightning Web Components that manage over 150 patient records daily, automating 100 appointment reminders weekly. Integrated 2 external systems to update 250 records daily saving 8 manual work hours per week. Recognized for delivering robust, scalable solutions that drive operational efficiency.

Key Skills

- Lightning Web Components (LWC)
- APEX Programming & Triggers
- Salesforce Data Modelling
- API Integrations (REST/SOAP/JSON)
- Sales Cloud
- Visualforce & Flows
- Security & Access Management (RBAC)

Work Experience

Delta Dental, Salesforce Developer

April 2022 – Present

- Developed 4 Lightning Web Components for patient data management, processing over 150 records daily.
- Automated 100 appointment reminders weekly via email/SMS, reducing missed appointments by 20 each month.
- Engineered 6 APEX classes and triggers to customize patient records, cutting manual data entry by 8 hours weekly.
- Integrated 2 external systems using REST APIs to update 250 patient records daily, eliminating 15 data errors weekly.
- Configured custom dashboards delivering 5 key performance metrics, reducing manual reporting time by 90 minutes daily.
- Enhanced data security by establishing 3 custom permission sets, safeguarding 500 patient records from unauthorized access.
- Collaborated with a 5-person cross-functional team, achieving 30% faster user adoption for new features.

Nokta Dental, Dental Assistant

January 2015 – June 2017

- Assisted in 30 dental procedures weekly, ensuring precise treatment support and boosting patient satisfaction scores.
- Managed 200 patient records with 100% accuracy, consistently upholding HIPAA standards.
- Coordinated appointment scheduling for 40 patients daily, reducing scheduling conflicts by 10 incidents per week.
- Supervised sterilization and inventory across 3 clinics, streamlining operations for 5 dentists daily.
- Trained 2 new dental assistants on best practices, cutting onboarding time by 50%.
- Resolved 90% of patient billing inquiries within 24 hours, improving satisfaction scores.
- Partnered with lab technicians to expedite sample processing, reducing wait times by 15%.

Education

Anka Educational Institution, Dental Assistance Course
Reauf Denktas High School, Diploma in Dental Assisting

2011 - 2012
1997 - 2000

Certifications

- Salesforce Certified Administrator – Credential ID: 3813250
- Salesforce Certified Platform Developer I – Credential ID: 3813328
- Salesforce Certified AI Associate – Credential ID: 5458636

Projects

- **Clinic Management Project:** In this 6-month initiative, I implemented a Salesforce-based Clinic Management System (CMS) that automated patient registration, scheduling, and billing—reducing administrative workload by 40% and ensuring HIPAA/GDPR compliance. By developing Apex Triggers, Lightning Web Components, and integrating REST APIs, I eliminated 90% of manual data entry and improved data accuracy by 25%, accelerating appointment bookings and boosting patient satisfaction by 15%. These enhancements significantly elevated overall operational efficiency.
