EXPERIENCE OVERVIEW

Lead Salesforce Developer

Red Carpet VIP, Las Vegas, NV

Feb. 2020 – Present

- Customized Salesforce using Apex, tailoring it to meet unique business needs.
- Engineered triggers to automate critical processes, boosting organization-wide efficiency.
- Integrated external systems for seamless data flow and comprehensive customer insights.
- Developed and maintained customer-facing sites, enhancing user experiences.
- Automated email workflows, driving engagement and fostering business growth.
- Designed and developed landing pages, capturing leads and driving conversions effectively.
- Built Lightning Web Components for dynamic user interfaces, enhancing satisfaction.
- Generated insightful reports and dashboards, empowering decision-makers with actionable insights.

Lead Software Engineer
Otsy Inc., Miami, FL (Remote)

March 2021 – March 2023

- Led the front-end development for the Mobile Travel Application, contributing throughout the entire Software Development Life Cycle (SDLC).
- Developed and optimized the application using React Native, React, and TypeScript for smooth performance.
- Designed and implemented scalable, secure software solutions to make a real impact on the business.
- Managed code audits, pull requests, and feature development to keep the project on track.
- Coordinated integrations with key services to handle data effectively and keep users engaged.
- Successfully launched the Otsy app on both Apple App Store and Google Play Store, meeting all requirements.
- Executed unit, integration, and end-to-end testing to ensure quality software.
- Utilized iOS and Android development experience to ensure the app worked on all platforms.
- Leveraged Git, GitHub, Confluence, and Jira to collaborate effectively.
- Enhanced software reliability by using the Postman API Platform for testing and monitoring.
- Mentored engineers to build a strong team and share knowledge.
- Managed app publishing and supported post-launch to keep things running smoothly.
- Maintained comprehensive documentation throughout the SDLC to make maintenance easier.

SEO Specialist & Web Developer
BM Innovations, Las Vegas, NV

Feb. 2020 – April 2021

- Provided comprehensive support for clients, managing SEO optimization, email marketing, and digital campaigns.
- Collaborated with the development team to optimize CRM systems, enhancing client efficiency.
- Led WordPress development projects, ensuring flawless functionality and user experiences.
- Developed JavaScript solutions to improve website performance and drive user engagement.
- Streamlined client processes through CRM development initiatives, boosting operational efficiency.
- Offered strategic consultation to fine-tune marketing efforts and achieve business objectives.

- Leveraged latest industry trends and emerging technologies to deliver competitive solution.

Feb. 2020 – Present

Jr. Software Developer

The Tech Academy, Portland, OR

- Completed over 1,000 hours of hands-on experience, including real-world projects in a team environment.
- Proficient in seven popular programming languages, including C#, Python, JavaScript, HTML, CSS, SQL, and more.
- Possess well-rounded full-stack development skills, preparing for entry-level positions in software and web development.
- Demonstrated ability to work both independently and collaboratively within a team setting, evidenced through practical projects and live development experiences.
- Participated in full stack web development to prepare for entry-level positions.
