EDUCATION

DEPAUL UNIVERSITY, COLLEGE OF COMPUTING & DIGITAL MEDIA

Chicago, IL

Bachelor's in Data Science, Minor in Business

September 2021 - June 2025

- GPA: 3.84/4.0
- Relevant Coursework: Foundations of AI, Machine Learning, Big Data Processing

PROFESSIONAL EXPERIENCE

DEPAUL UNIVERSITY STATISTICAL CONSULTING CENTER

Chicago, IL

Statistical Data Analyst

February 2024 - March 2024

- Provided end-to-end statistical assistance in all stages of quantitative research, including experimental design, data cleaning, and analysis, for clients across the university, non-profits, and government sectors.
- Conducted comparative analysis of satisfaction surveys using non-parametric methods such as the Wilcoxon Signed Rank Test to identify statistically significant changes in satisfaction levels.
- Designed and implemented data visualizations (e.g., bar charts, box plots, trend lines) to clearly communicate analytical insights to both technical and non-technical audiences.

EXACT SPORTS

Chicago, IL

Operations Intern

September 2024 - November 2024

- Managed inventory by manually sorting, counting, and organizing stock of over 1000 units to ensure accuracy and readiness for order fulfillment.
- Prepared shipping packages and created labels for over 100 domestic and international orders, adhering to company and carrier requirements to ensure timely and efficient deliveries.

MARKABLE AI

Seattle, WA (Remote)

Data Analyst

April 2025-Present

- Streamline data consolidation by automating the merging and updating of master files using Google Apps Script.
- Develop and automate interactive data visualization creation via Google App Script to enhance user understanding of the data.
- Maintain data accuracy and automation functionality through ongoing revisions.

ACADEMIC PROJECTS

NBA FREE THROW ACCURACY ANALYSIS

Chicago, IL

DSC 365 Data Visualizations

Autumn 2023

- Performed an analysis of NBA players' free throw accuracy, utilizing ten data visualizations to explore correlations with factors such as height, weight, position, and experience, uncovering key insights into performance trends.

SOCCER BOOT BRAND PREFERENCE ANALYSIS

Chicago, IL

DSC 345 Machine Learning

Spring 2024

- Developed and trained machine learning classifiers to analyze and predict professional soccer players' preferred boot brands, leveraging player attributes, performance data, and brand-specific features.

EUROPEAN SOCCER STARTING XI PREDICTION

Chicago, IL

DSC 333 Introduction to Big Data

Autumn 2024

- Constructed a Random Forest classifier using AWS tools and a 545.57MB dataset to predict player inclusion in starting lineup of European soccer matches, leveraging match statistics and player attributes for accurate predictions.

PREDICTING HEALTHCARE COSTS: USING A MACHINE LEARNING APPROACH

Chicago, IL

SE 350 Data Science Capstone

Winter 2025

- Cleaned, encoded, and applied dimensionality reduction techniques to an 851MB healthcare dataset used to predict inpatient costs with five machine learning models trained on patient demographics, hospital information, and illness descriptions.
- Designed an interactive Shiny web application to showcase model performance and generate real-time cost predictions.

ADDITIONAL INFORMATION

- Technical Skills: R, Python, Java, Google Apps Script, AWS, SQL, Excel, Shiny, Tableau, and Pivot Tables.
- Languages: Native Spanish, and fluent English.
- Activities: Marathon runner, soccer player, and sports aficionado.
