WORK HISTORY

Software Engineer at C.A.C.I.

March 2024 - July 2024 (0 Year)

- Technology RHEL Red Hat Linux, Podman containerization, Octave MATLAB, C C++, Python, Java, Windows, Atlassian Jira.
- .
- Investigating enhancements for Navy surveillance antenna software.

Software Engineer at National Geospatial-Intelligence Agency

December 2023 - February 2024 (0 Year)

- Technology Docker 25, macOS 14, Windows 10, Centos Linux, Bash, C, C++, Python, NumPy, SciPy, matrices.
- .
- Use Docker on Linux servers in order to containerize computational algorithms and experimental results.

Software Engineer at University of California

October 2023 - December 2023 (0 Year)

- Technology macOS 14, Java JDK 20, Java Swing GUI, Eclipse 23.
- .
- Create requirements and implement code for Java Swing GUI app in order to record clinical psychological observations.

Software Engineer at Army Communication Electronics Command CECOM

December 2022 - March 2023 (0 Year)

- Technology Website, .NET, C , Windows 10, SQL Server, Windows Server, and Linux.
- Windows 10.
- .
- Analyze and explain software for web interface to database of SIGINT, COMINT, and ELINT.

Systems Engineer at L3Harris

October 2022 - November 2022 (0 Year)

- Technology C C++, Python, Linux, Jira, DOORS, Cameo, IBM Rhapsody, Microsoft Excel, Windows 10.
- .
- Developing Testable Software Requirements using DOORS, Rhapsody, and Cameo software tools for NSA Type 1 Cybersecurity device .
- .
- Preparing software requirements in DOORS for Preliminary Design Review (PDR).

Python Developer at IBM Thomas J. Watson Research Center

April 2022 - July 2022 (0 Year)

- Technology C C++, Python, Linux.
- .
- Developing Python scripts in order to test simulations of a new CPU Cache RAM.
- .
- Diagnosing the underlying hardware implementation of instructions, registers, and RAM.

Web Developer at FBI Criminal Justice Information Services (CJIS)

September 2021 - March 2022 (0 Year)

- Technology Java, Spring, JEE, JUnit, Eclipse, Maven, SoapUI, Whorl, SOAP, XML, JSON, Linux, Windows Server 2019, Oracle SQL Developer, Jenkins, CI CD.
- .
- Investigating, diagnosing, and debugging website front end and business logic back end.
- .
- Java development for Web Thin Client access to biometric, biographic, and criminal databases.

Web Developer at Army Communications-Electronics Command (CECOM)

February 2020 - March 2021 (1 Year)

- Technology Java, JEE, JUnit, Eclipse, Maven, Python, IDLE, Bash, Github, Web Scrapping, JSON, Linux, Windows Server.
- .
- Web development for DGCS-A HUMINT, web based database of human intelligence.
- .
- Coded Python to convert Java JUnit4 Unit Testing to JUnit5.
- .
- Coded Python with Tkinter GUI for web scraping web in order to maintain website s maven dependencies in both a spreadsheet and JSON database.
- .
- Coded Python to convert 8000 Python 2.7 scripts to 3.x.
- Documented in spreadsheet.

Embedded Software Engineer at Army Aberdeen Test Center (ATC)

October 2019 - January 2020 (0 Year)

- Technology C++14, g++, gdb, Qt5, Python3, PySide2, Python3 calling C++14, CentOS Linux.
- .
- Algorithms for tracking a U.S.
- Army Unmanned Ground Vehicle (UGV).
- .
- GUI display and analysis of UGV travel on obstacle track.

GUI and Web Developer at Maxwell-Gunter Air Force Base

September 2018 - June 2019 (1 Year)

- Technology Tcl Tk 8.6, PowerShell, Solaris 10, Oracle 11, SQL Developer, Java 8, JDeveloper, Maven, HTML5, CSS3, JavaScript, EMCAScript 6, WebLogic, SCRUM, Agile, Forge.
- .
- Modernizing U.S.
- Air Force deployment website.

- .
- Replacing and rearranging fields on the Thick Client (desktop GUI).
- .
- Coding changes for database triggers in SQL.
- .
- Switch unique ID away from Social Security Number (SSN).

EDUCATION

Sonoma State University - Bachelors Degree

Graduated 1970-01-01

- BA Physics

SKILLS

- C++ (programming language), 10 years
- Java, 10 years
- Python, 10 years
- Embedded Systems, 10 years
- Web Development, 4 years
- GUI, 4 years
- Linux, 10 years

ABOUT ME

- I have a drivers license
- I have a security clearance
