PROFESSIONAL SUMMARY

Results-driven Data Analyst with over three years of experience in data analysis, ETL, business intelligence, and reporting. Skilled in **SSIS**, and **SQL**, with a strong ability to write complex queries for data extraction and transformation. Adept at leveraging **Power BI** and **Excel (VBA, Power Query, Pivot Tables)** for insightful reporting and visualization. Passionate about problem-solving, data storytelling, and driving business decisions through structured data analysis.

Skills and Tools

- **Data Integration & Reporting:** SSIS, SSRS, Power BI, Advanced Excel (VBA, Power Query, Macros)
 - **Database Management:** SQL (MySQL, PostgreSQL), ETL, Stored Procedures
 - **Programming & Automation:** Python (Pandas, NumPy), SQL optimization
 - **Market & Sales Insights:** Competitor analysis, revenue forecasting, campaign performance measurement.
 - **ETL Processes:** Data cleansing, integration, and transformation.
 - **Other Tools:** MS Office 365, ServiceNow (basic)
-

PROFESSIONAL EXPERIENCE

Data Analyst (Trainee & Projects)

Self-Directed Learning & Practical Projects | Mar 2020 – Dec 2024

- Completed **Google Data Analytics Professional Certificate**
- Built Power BI dashboards using real-world datasets to analyze sales, customer behavior, and marketing performance
- Created ETL workflows and practiced query optimization with MySQL and PostgreSQL
- Conducted exploratory data analysis using Python (Pandas, NumPy) and visualized results using Excel and Power BI
- Rebuilt previous reporting workflows using modern tools like Power Query, SSRS templates, and automated dashboards
- Worked on mock business cases (via Maven Analytics ,Udemy & LinkedIn Learning) to solve problems in retail and sales.

Key Highlights:

- Demonstrated continuous learning during a career break
- Designed interactive reports for KPI tracking and performance monitoring
- Practiced real-time analysis of open datasets and presented findings via portfolio

Data Analyst Atyati Pvt. Ltd., Bhubaneswar, India | *Dec 2018 – Feb 2020*

- Developed and optimized complex SQL queries for data extraction, slicing, and transformation.
- Designed **SSRS** reports and automated reporting solutions, improving operational efficiency.
- Built **ETL pipelines using SSIS**, streamlining data integration from multiple sources.
- Created interactive **Power BI** dashboards to visualize key performance metrics for sales and product teams.
- Automated sales reports using **Excel VBA** and **SQL**, reducing manual effort by 30%.

Key Achievements:

- Reduced SQL query execution time by **30%** through query optimization and indexing.
- Improved sales reporting efficiency by designing dynamic dashboards.

Computer Instructor NICE, Odisha, India | *Jun 2006 – Nov 2009*

- Designed and automated **SQL-based** reporting solutions to track student performance.
- Developed customized **Power BI dashboards**, providing actionable insights for curriculum improvements.
- Enhanced reporting efficiency by 25% through Excel automation and optimized queries.

EDUCATION

Master of Computer Application | 2003-2006

G.M College, Odisha, India

Relevant Coursework: Data Analysis, Database Management, Statistical Analysis, Data Modeling.

Certifications [\(Link\)](#)

- **Google Data Analytics Professional**
- **Python Certification (PCEP)**
- **SQL Essential Training (LinkedIn Learning)**
- **Complete Guide to Power BI (LinkedIn Learning)**
- **Programming Foundations: Software Testing QA (LinkedIn Learning)**
- **Excel (LinkedIn)**
