EXPERIENCE

DUKE UNIVERSITY, Capstone Project for a Global Investment Bank Student Consultant - Partnered with senior audit executives to define requirements for an AI-powered audit visualization tool, ensuring alignment with business needs - Designed and tested two automation solutions in Python and Mermaid, enabling flexible visualization of complex audit processes - Enhanced workflow efficiency by creating prompt templates and refining Copilot transcript use, improving output consistency and quality - Delivered a working prototype and strategic recommendations to client stakeholders, supporting potential adoption across global internal audit teams	Durham, NC Mar – May 2025
LULIN NEW ENERGY TECHNOLOGY INC Business Analyst Intern - Conducted financial analysis on 120+ client transactions, uncovering pricing inefficiencies and recommending changes that improved margins by 5% - Built Tableau dashboards to track revenue, inventory turnover, and cash flow, reducing excess inventory by 15% and improving decision-making speed - Performed channel-level profitability analysis and reallocated RMB 35,000 toward higher-margin products, strengthening portfolio performance	Hangzhou, China Jan – Jul 2024
HANGZHOU PROSPERITY INVESTMENT ADVISORY CO., LTD. Business Strategy Analyst Intern - Performed financial and operational benchmarking for 8 SME clients, identifying inefficiencies and recommending initiatives that delivered RMB 80,000 in projected cost savings - Designed Excel-based forecasting models to simulate cash flow scenarios, improving forecast accuracy by 10% and strengthening investment decisions - Automated data consolidation workflows in SQL, cutting manual reporting time by 20% and enabling more reliable client deliverables	Hangzhou, China Jun – Aug 2023

PROJECTS

Expanding Lindt's Market (Duke Consulting, 2024): Led the introduction of 'Lindt Signature' into the U.S. premium chocolate segment, projecting \$1.3B revenue increase over five years and developing strategies for market entry and pricing
Improving Customer Engagement and Retention for Dognition (SQL): Queried six relational tables (8M+ rows) using joins, CTEs, and window functions to detect potential data errors and generated customer retention insights for business growth.

TECHNICAL CAPABILITIES

Business Analysis: requirements gathering, process mapping, user-story creation, stakeholder management, KPI definition
Data Visualization & Reporting: Excel (macros & VBA, pivot tables, Solver), Tableau, Power BI, PowerPoint dashboards
Data Analysis: SQL (joins, window functions, CTEs), Python (pandas, NumPy), R (tidyverse), A/B testing, regression analysis
Languages: English (fluent), Chinese (native), Spanish (conversational)
