WORK EXPERIENCE

Operations Administrator | Northeastern University

December 2023 - December 2024 | Boston, MA

- **Led and streamlined contract approval workflow**, reducing processing time by 37.5% (from 8 to 5 days) within three months, and processing over 3000+ contracts using Intellibuy and DocuSign to ensure timely execution and accurate tracking.
- **Spearheaded the transition of the Finance and Treasury department** to a shared workspace model under 10 days, optimizing space utilization, enhancing collaboration, and ensuring a seamless transition across teams.
- **Developed and implemented comprehensive Standard Operating Procedures (SOPs)** for contract approval and management, establishing clear guidelines for handling, issue resolution, and facilitating cross-departmental communication.
- **Implemented strategic inventory management and tech distribution initiatives**, improving workflow efficiency, asset tracking, and accountability across 7 sub-departments while supporting file reorganization to ensure document integrity.

Project Manager Co-op | Keyed Brick (Van Cor Threads LLC)

April 2024 – September 2024 | Winchester, NH(Remote)

- **Developed comprehensive project documentation and Standard Operating Procedures** for federal grants management, ensuring streamlined processes and adherence to compliance standards throughout the application lifecycle for over 20 potential grants.
- **Conducted targeted research** to identify high-value grant opportunities, systematically assessing application criteria to align submissions with funding objectives and ensure eligibility compliance.
- Designed and maintained comprehensive application guidelines for 10+ grants, standardizing processes, **establishing project timelines and resource allocation strategies** to ensure team readiness and effective contributions throughout the grant cycle.
- **Crafted** research-driven grant applications for startup initiatives, integrating detailed budgets, schedules, and project management practices to ensure effective timeline coordination and resource optimization.

Business Development Associate | B B Enterprises

September 2021 – September 2022 | Bangalore, India

- **Conducted comprehensive market research and competitive analysis**, identifying over 25 lucrative business opportunities that significantly expanded the company's client base through targeted customer surveys and industry insights.
- **Proficiently managed and updated 500+ CRM records** of sales activities and customer interactions, creating dashboards and defining KPIs to deliver key insights into customer behavior, market development and sales trends, driving business growth.
- **Generated 100+ leads** through strategic outreach, including cold calls and relationship building with potential clients, contributing to a 10% increase in gross revenue by collaborating with senior management on business strategies.
- **Reduced SKU delivery timelines by 25%** by streamlining internal communication and enhancing team collaboration, improving operational efficiency and customer satisfaction, while supporting senior management in key operational functions.

RELEVANT PROJECTS

Commonwealth of MA | Logistics and Project Coordination for Renovation and Relocation of City Buildings

September 2024

- **Developed and executed a comprehensive logistics and project plan** for the relocation of 3 City buildings and multiple departments, ensuring a smooth transition with minimal project and operational disruption.
- **Created a detailed Work Breakdown Structure (WBS)** that outlined deliverables, sub-deliverables, activities, tasks and a project schedule along with dependencies, optimizing project execution and resource allocation.
- **Conducted thorough research and scope analysis**, integrating a risk and stakeholder register into the project plan to identify potential challenges, and develop mitigation strategies, to facilitate effective communication and collaboration across the project.
- **Formulated a detailed project budget** with cost estimates and resource allocation, ensuring adherence to financial constraints, while driving process improvements that increases operational efficiency and effectiveness.

JP Morgan Chase & Co. Agile Job Simulation - Forage

September 2023

- **Developed expertise in Agile and Scrum methodologies** and applied these principles to enhance team collaboration, adaptability, and the efficiency of product development processes. Facilitated Scrum ceremonies, including daily stand-ups and sprint retrospectives, to drive continuous improvement, promote transparency, and foster a culture of teamwork.
- **Leveraged Trello to design Kanban boards, streamlining project workflows** and task prioritization. Used story points to track and prioritize user stories in the backlog, enhancing project planning, and resource allocation.
