## EDUCATION

---

### Clemson University

Master of Science in Mathematical Sciences, Concentration in Statistics

08/2023 - 05/2025

- **Master's Project:** Using a Random Regression Mixed Model to understand the plasticity of rice varieties in a changing environment
- **Graduate Assistant:** Working as an educator teaching intermediate statistics and running multiple labs

### Clemson University

Bachelor of Science in Mathematical Sciences, Concentration in Statistics

08/2020 - 05/2023

- **Study Abroad:** Université Clermont Auvergne, Clermont-Ferrand, France. Classes in Linear Programming, Culture of France, and touring Michelin facilities
- Completed undergraduate degree in three years

## EXPERIENCE

---

### Research Projects

Clemson University School of Mathematical and Statistical Sciences, Clemson, SC

08/2023 - 05/2025

- Collaborated with research partner to forecast S&P 500 ETF (VOO) highs and lows (2000 - 2023) using statistical methods (ARIMA and Line + Noise models) with daily, weekly, and monthly data
- Used association rules to analyze the voting patterns of players in the CBS show Survivor

### Graduate Assistant

Clemson University School of Mathematical and Statistical Sciences, Clemson, SC

08/2023 - 05/2025

- Taught Statistical Methods I and Introductory Business Statistics courses (~ 40 students per class)
- Led lab sessions on JMP software, guiding students in data analysis and statistical applications
- Taught key statistical concepts, including hypothesis testing, confidence intervals, descriptive statistics, probability (discrete and continuous), and sampling distributions (normal, t, chi-squared)
- Managed course content and announcements using Learning Management System (LMS; Canvas)
- Graded 100% of homework within one week, ensuring timely feedback for student learning
- Conducted weekly in-person and virtual office hours, providing 1:1 tutoring and academic support
- Fostered an interactive learning environment by encouraging class participation and discussions
- Provided additional support for students requiring accommodations to ensure an inclusive learning experience

### Mathematics Tutor

Clemson University School of Mathematical and Statistical Sciences, Clemson, SC

08/2021 - 12/2021

- Tutored four student athletes in MATH 1010 (Essential Mathematics for the Informed Society), MATH 3110 (Linear Algebra), and STAT 2220 (Statistics in Everyday Life), providing 1:1 guidance and support
- Adhered to ACC, Clemson, and NCAA policies to ensure academic integrity and compliance
- Fostered a comfortable learning environment that encouraged student engagement and questions
- Adapted tutoring strategies to accommodate varying skill levels, ensuring personalized support

## SKILLS

---

**Regression:** Linear, Logistic, Multivariate, Ridge, LASSO, Time Series, RRMM

**Clustering:** K-Means, Hierarchical, DBSCAN

**Statistical Techniques:** Neural Networks, Gibbs Sampler, Bootstrapping, LOOCV, AI/ML, Frequent Item-set Mining, Association Rules, Random Forest

**Coding Languages / Software Proficiency:** R, SQL, SAS, MATLAB, Python, JMP, C++, Microsoft Office Suite

**Soft:** Communication, Team-Player, Public Speaker, Analytical, Data Visualization, Collaborative
