WORK EXPERIENCE

FIS - Fidelity National Information Services

Remote

Compliance Data Analyst

Dec 2022 – Sep 2025

- Designed and deployed workflow automation apps in Quickbase to streamline manual data processes from management, integrating SQL Server Management Studio (SSMS) connectors to establish robust data pipelines for Power BI reporting and analytics.
- Created KPI reports by collaborating with internal directors to save organizational teams 104+ hours of manual reporting work every month.
- Designed team logo for all Power BI reports made by the AI & Automation Reporting group- increasing visibility and increasing demand for BI Reporting.
- Leveraged Power Automate and Power Apps to automate manual Microsoft Excel exports – creating a time savings of 8 hours a month.
- Created an executive report view highlighting key business metrics, leveraging Microsoft Fabric to streamline and unify dataflows from multiple reports into a single, one-page dashboard for leadership visibility and decision-making

Florida Department of Transportation

Tallahassee, FL

Information Technology Intern

Oct 2021 - Dec 2022

- Enhanced employee experience by curating 20 technical articles in a knowledge base, streamlining contractors' workflow tasks and operations of the FDOT.
- Created and presented visualizations from Snowflake into Power BI to display average system response to contractors FDOT required to disclose.
- Created an OIT Microsoft Sharepoint Feedback system so management can receive user sentiment data.
