SUMMARY

Cyber Operations graduate with 3+ years of progressive experience in healthcare operations, process optimization, and systems management. Proven ability to drive operational efficiency improvements, including reduction in patient wait times and cross-departmental workflow enhancements. Strong foundation in data analysis, compliance management, and technical systems with demonstrated leadership in high-pressure environments. Ready to apply analytical problem-solving and operational excellence skills in cybersecurity, IT operations, or business analysis roles.

EDUCATION

UNIVERSITY OF ARIZONA, ONLINE

GRADUATED DECEMBER 2024

BACHELOR OF APPLIED SCIENCE IN CYBER OPERATIONS EMPHASIS: CYBER LAW & POLICY

PROFESSIONAL EXPERIENCE

ADMINISTRATIVE COORDINATOR - UROLOGY SERVICES

SEPT 2023-PRESENT

MAYO CLINIC HOSPITAL, PHOENIX, AZ

- **Electronic Health Records Management:** Obtained and imported patient-related materials, images, and documentation into EPIC electronic health records, ensuring accurate and timely data integration
- **Multi-Provider Calendar Optimization:** Coordinated complex scheduling across multiple provider calendars to maximize patient access while maintaining operational efficiency and institutional objectives
- **High-Volume Communication Triage:** Managed and prioritized patient calls, electronic messages, and correspondence, providing appropriate follow-through and resolution
- **Physician Liaison Services:** Served as primary liaison for referring physicians, coordinating complex appointments, ancillary testing, and specialized procedures
- **Travel & Expense Coordination:** Processed comprehensive travel arrangements and expense management for national and international conferences, ensuring compliance with institutional policies
- **Administrative Project Support:** Generated databases, reports, and presentations while providing direct support to Operations Administrator and department leadership
- **Inventory & Resource Management:** Purchased and maintained office supplies and equipment inventory, optimizing resource allocation and cost management

PATIENT SERVICES SPECIALIST

JUNE 2022- SEPT 2023

MAYO CLINIC CAMPUS, SCOTTSDALE, AZ

- **Patient Care Coordination:** Served as primary patient contact and resource, managing comprehensive visit coordination from check-in through appointment completion
- **Clinical Data Collection:** Performed vital sign collection and pre-examination documentation, ensuring accurate patient health records and seamless provider handoffs
- **Patient Flow Management:** Coordinated patient material flow and room assignments, optimizing clinic efficiency and minimizing bottlenecks in high-volume environment
- **Appointment Lifecycle Management:** Managed complete appointment process including scheduling, rescheduling, follow-up coordination, and real-time communication of delays or changes
- **Patient Experience Enhancement:** Provided proactive assistance and patient support, contributing to improved satisfaction scores
- **Healthcare Team Support:** Anticipated and responded to physician and healthcare team requests, facilitating smooth clinical operations and patient care delivery
