Professional Summary

Detail-oriented MIS Analyst with strong expertise in SQL, Snowflake, and dashboard reporting tools like Mode, Power BI, and Tableau. Skilled at developing and optimizing SQL queries, building real-time dashboards, managing cloud data workflows, and ensuring data integrity across platforms. Adept at cross-functional collaboration, process automation, and driving data-driven decision-making through actionable insights.

Key Skills

- SQL Query Development & Optimization
- Snowflake Data Warehousing
- Power BI, Tableau, Sigma & Mode Dashboard Reporting
- Data Workflow Automation
- Data Integrity Monitoring & Troubleshooting
- Business Intelligence (BI) Best Practices
- ETL Processes & Pipeline Management
- Cloud Platforms: Snowflake, Redshift, Azure
- Data Governance & Reporting Standards
- Python for Data Manipulation (Intermediate Knowledge)
- Process and Quality Improvement (Lean-six sigma)

Professional Experience

Data Engineer (Intern)

2MJ Logistics | Anthem, AZ | October 2024 – Present

- Develop, optimize, and maintain SQL queries across multiple data sources for reporting and analysis.
- Build dynamic dashboards and operational reports using Power BI and Sigma to provide real-time business insights.
- Collaborate with operations and finance teams to gather data requirements and ensure reporting accuracy.
- Manage ETL pipelines and workflows ensuring scalable and efficient data management processes.
- Troubleshoot data inconsistencies, monitor data integrity, and maintain governance standards across cloud platforms.
- Support ad hoc data analysis requests and present findings to support operational and strategic decisions.

Data Analyst (Intern)

Agave Residential Living | January 2024 – June 2024

- Extracted, transformed, and analyzed clinical and financial data to support performance tracking initiatives.
- Created dashboards and reports in Power BI, improving visibility into business operations and resource allocation.
- Developed and automated reporting processes that reduced manual data handling time by 30%.
- Assisted in the implementation of data quality checks across reporting systems.

Business Analyst

Caritas Nigeria | March 2016 – December 2022

- Designed and maintained business dashboards using Tableau, Power BI and Excel-based reporting tools.
- Led data gathering initiatives to streamline HR and clinical workflows, ensuring accurate documentation and compliance.
- Conducted ad hoc reporting and analysis to support donor and organizational reporting requirements.
- Developed process improvement frameworks, supporting data-driven operational enhancements.

Education

Master of Science in Business Analytics — Grand Canyon University (2024)

Doctor of Optometry — University of Benin (2016)

National Diploma in Industrial Safety and Environmental Technology — Petroleum Training Institute (2006)

Certifications

- Project Management Professional (PMP) – 35 PDUs (Udemy, 2023)
- Project Management for Development Professionals (PMD-Pro, 2017)

Professional Development & Additional Information

- Strong problem-solving, critical thinking, and analytical skills.
- Skilled in presenting complex insights to non-technical stakeholders.
- Passionate about building efficient, scalable reporting systems from scratch.
- Experienced in working with cloud-based environments (Azure, Snowflake).
