Professional Summary

Healthcare Data Analyst skilled in SQL, Python, R, Tableau, and Power BI, with experience analyzing EHR, claims, and care management data. Proven ability to design predictive models, build dashboards, and improve workflows that enhance patient outcomes, reduce costs, and support business decision-making in healthcare organizations.

Professional Experience

UCHealth

Denver, CO

Virtual Health Technician

Feb 2025 – Present

- Monitored **500+ patients** via remote patient monitoring programs, reducing readmission rates by **15%**.
- Ensured **100% HIPAA compliance** and accurate data handling in Epic EHR.
- Delivered telehealth support that increased patient satisfaction by **12%**.
- Improved Epic documentation workflows, cutting charting time by **20%**.

G Technological Solutions

Data Science Intern

Jan 2024 – Jan 2025

- Analyzed **5M+ healthcare records** with Python, R, SQL, and Tableau to identify utilization and cost trends.
- Built predictive ML models, improving forecasting accuracy by **18%** and optimizing resource allocation.
- Automated ETL workflows, reducing reporting time from **3 days to 4 hours**.
- Presented insights to clinical stakeholders, enabling data-driven interventions.

Nuance India Pvt. Ltd.

Data Analyst – Health

Jun 2022 – May 2023

- Analyzed EHR and claims datasets to support clinical decision-making and operational efficiency.
- Developed SQL queries and Tableau dashboards for tracking documentation quality across **50+ providers**.
- Ensured **98% accuracy** in ICD-10 coding validations, improving claim acceptance by **10%**.
- Collaborated with cross-functional teams to standardize reporting and improve reimbursement workflows.

Inventurus Knowledge Solution

Quality Documentation Specialist

Feb 2022 – May 2022

- Reviewed and validated physician-patient documentation to ensure compliance with ICD-10 standards.
- Supported accurate coding and reimbursement processes through structured EHR note improvements.
- Maintained high quality standards and regulatory compliance with **zero HIPAA violations**.

Education

University of Denver

Denver, CO

M.S. in Health Informatics

May 2023 – Dec 2024

Relevant Coursework: Healthcare Analytics, Database Systems, Predictive Modeling, Clinical Decision Support

SVS Institute of Dental Sciences

Mahbubnagar, India

B.D.S. in Dentistry

Oct 2016 – Jan 2022

Projects

Healthcare Claims Fraud Detection: Built ML models in Python/SQL to detect fraudulent claims with **85% accuracy**, reducing potential revenue leakage.

EHR Readmission Dashboard: Developed a Tableau dashboard analyzing **10,000+ patient records**, enabling proactive identification of high-risk patients.

Predictive No-Show Analysis: Created R-based predictive model that reduced patient scheduling inefficiencies by **20%**.

Technical Skills

Programming: Python (Pandas, NumPy, Scikit-learn), R, SQL (T-SQL, Stored Procedures), SAS, VBA

Databases: SQL Server, Relational Databases, Data Warehousing

Analytics: Regression, Classification, Time Series, Predictive Modeling, Geospatial (QGIS)

Visualization: Tableau, Power BI, Excel (PivotTables, Macros), Report Builder

Healthcare: ICD-10 Coding, EHR Systems (Epic, Cerner, eCW), Claims Data, HIPAA Compliance

Concepts: Data Modeling (Star/Snowflake), Normalization, Master Data Management, Slowly Changing Dimensions (SCD)

Other: Agile Methodologies, Data Governance, Time Management

Certifications

Google Data Analytics Professional Certificate (2024)

Tableau Desktop Specialist (2024)

Health Information Privacy and Security (CITI)

Responsible Conduct of Research (CITI)

Basic Life Support (BLS)

Volunteer Experience

Organized free dental camps benefiting **500+ school children** in underserved communities.

Lead Volunteer, TEAM SUNSHINE (Reg-107/IV/2019), supporting rural health awareness programs.
