PROFESSIONAL EXPERIENCE

Epic Wings, Lead IT Technician

Oct 2024 – Aug 2025 Los Angeles, CA

- Managed and supported all Microsoft 365 services for the Epic Wings brand
- Lead the onboarding, account creation, and access for all Epic Wings employees
- Supported and maintained the overall Revel POS system and OLO online ordering platform.
- Assisted franchisees with POS and online menu implementation and maintenance
- Managed the Paytronix guest loyalty platform and app.
- Onboarded and managed AI-powered SOCi platform for multi-location marketing and customer engagement.
- Maintained and updated company website through Webflow for security, ADA compliance, and marketing purposes
- Inspected, maintained and supported in-store POS, kitchen-related displays, and networking equipment installations.
- Created technical documentation, onboarding guides, and training resources to improve adoption and reduce support requests.
- Configured user accounts, access permissions, and security policies across cloud and on-premises systems.
- Monitored network performance, troubleshoot connectivity issues (IP, DNS, DHCP), and coordinated with vendors to ensure uptime.
- Developed reports and dashboards in Excel to track system performance and present insights to leadership.
- Developed SOPs, knowledge base and training guides for staff use and reference
- Supported technology and software procurement efforts and played an active role in high-impact sales presentation meetings

Taco Bell, Service Desk Analyst - L1

Feb 2024 – Oct 2024 Irvine, CA

- Provided technical support for incoming queries and issues related to user accounts and restaurant management software
- Provided technical support for software application problems on Windows-based and Android-based systems
- Provided technical support for hardware issues with Windows-based computers, printers, and Android-based tablets and restaurant specific technologies like point of sales systems, credit card readers, digital display boards, and kiosks.
- Resolve technical problems with Local Area Networks (LAN), Wide Area Network (WAN), and other systems.
- Performed all troubleshooting and technical support via call and chat
- Provided clear, customer-focused communication to ensure rapid resolution and minimal downtime
- Managed and prioritized work activities with minimal supervision to meet continuous deadlines which directly impact field operations
- Created, resolved, and followed up on tickets created on ServiceNow
- Kept detailed documentation for recurring issues and resolution processes.
- Assisted with locating and updating out of date knowledge base articles.
- Participated in training of new Service Desk Analysts

HelloTech, Senior Technical Customer Support Specialist

Aug 2021 – June 2023 Los Angeles, CA

- Delivered high-quality customer support via phone and email for digital billing, service delivery, and escalated technical issues.
- Managed and deescalated sensitive customer situations, maintaining positive interactions under pressure.
- Documented recurring issues and coordinated with insurance companies, property managers, and internal teams to resolve cases.
- Contributed to updating membership platform for better ease of use for customers.
- Supported customers in understanding and adopting technology solutions, acting as a bridge between users and technical teams.
- Created training guides and SOP's for junior team members.
