Profile

Business Intelligence Analyst who graduated top of class from TripleTen's BI Analysis program, with 6+ years of professional experience across healthcare, hospitality, and education. Proficient in SQL, Python, Tableau, Power BI, and Excel, with expertise in data cleaning, visualization, and storytelling. Adept at creating dashboards, identifying trends, and translating complex data into actionable insights that drive efficiency, strategy, and business growth. Passionate about leveraging analytics in healthcare, technology, AI, retail, sports, and beauty/fitness industries.

Employment History

Selected Projects, Super Store/TripleTen, Oregon City

AUG 2025 – SEP 2025

Customer Return Rate Dashboard | SQL, Excel, Tableau

- Conducted returns analysis for SuperStore to identify root causes of revenue loss from high return rates.
- Designed interactive Tableau dashboards using calculated fields, joins, and measures to visualize KPIs by geography, category, and seasonality.
- Translated findings into executive-level insights and recommendations, improving operational visibility and decision-making.

E-commerce Analytics | Excel & Google Sheets

- Analyzed customer behavior with cohort analysis and conversion funnels, uncovering insights on retention and purchase patterns.
- Built interactive visualizations to track drop-off points (view 'cart 'purchase) and recommend strategies to improve conversions.
- Identified retention trends and customer lifetime patterns to inform long-term growth initiatives.

Full-time Mom, Career Break, Seminole, FL/Oregon City, OR

OCT 2022 – OCT 2025

- Focused on raising my son while actively investing in professional growth and skill development.
- Completed TripleTen's Business Intelligence Analyst program, graduating top of class with hands-on projects in SQL, Python, Tableau, and Excel.
- Balanced complex responsibilities in a dynamic environment, strengthening time management, prioritization, and adaptability.
- Applied analytical and organizational skills to manage household planning, budgeting, and scheduling.
- Continued independent learning in BI tools and industry trends to stay current and prepared for re-entry into the workforce.
- Developed strong communication, conflict resolution, and mentoring abilities through daily problem-solving and guidance.

English Teacher, Preply, Remote, Thailand

SEP 2021 – OCT 2022

- Collected and analyzed student performance data to tailor lesson plans, increasing comprehension and engagement.
- Applied data-driven methods to track progress, improving student outcomes across diverse learner groups.
- Strengthened adaptability and cross-cultural communication through one-on-one instruction in a global environment.
- Developed engaging lesson plans to enhance student understanding of complex literary concepts.

- Implemented innovative teaching strategies to improve student participation and performance in English language arts.
- Integrated technology into lessons, utilizing educational software to enhance learning experiences.

Dermatology Physician Assistant, PhDermatology, Tampa, FL

AUG 2020 – SEP 2021

- Streamlined appointment and treatment workflows, reducing client wait times and boosting operational efficiency.
- Leveraged attention to detail and analytical skills to assess treatment progress and recommend solutions tailored to client needs.
- Ensured accuracy in client records and reporting, supporting compliance and improved patient outcomes.
- Assisted in developing treatment plans for various dermatological conditions, ensuring adherence to best practices.
- Performed minor surgical procedures such as biopsies, excisions, and cryotherapy under supervision.

Bartender/Shift Leader, Miller's Ale House, Seminole, FL

APR 2017 – AUG 2020

- Analyzed daily sales and performance metrics to optimize shift planning and staffing efficiency.
- Implemented process improvements during peak hours, reducing bottlenecks and improving service flow.
- Contributed to location being recognized as the highest-producing sports bar in the region.
- Trained and mentored new servers and bartenders, ensuring consistency in service standards and operational excellence.
- Oversaw health and safety compliance for both staff and customers, maintaining a secure and welcoming environment.
- Monitored alcohol pours and customer intake to align with company policies and regulatory requirements.

Education

Business Intelligence Analysis Program, TripleTen, Oregon City, OR

JUL 2025 – OCT 2025

- Graduated top of class in a rigorous, project-based BI program.
- Completed 6 applied projects, including e-commerce analytics, return rate analysis, and dashboard design using SQL, Python, Tableau, Power BI, and Excel.

Esthetician Program, Cortiva Institute, Pinellas Park, FL

AUG 2019 – AUG 2020

- Graduated in the Top 10 of Class; comprehensive training in advanced skincare techniques and client care.
- Worked with diverse practice clients to assess and treat multiple skin concerns, gaining real-world, hands-on experience in applying professional esthetics techniques.
