- **Languages:** SQL (joins, aggregations, window functions)
- **BI & Reporting:** KPI Dashboards, Ad-Hoc Reporting, Drilldowns, Data Storytelling
- **ETL & Data Tools:** ServiceNow (data extraction), SharePoint, Microsoft 365
- **Other:** Incident Management, Root Cause Analysis, Stakeholder Communication
- **Familiar With:** Python, Postgres, MySQL, AWS

WORK EXPERIENCE

MIS Analyst | Wipro Technologies | Retail (L'Oreal) | Pune, India

May 2022 – Jan 2024

- Designed and deployed interactive Power BI dashboards, identifying metrics, increasing KPI visibility and data accessibility by 25%.
- Automated monthly server incidence performance trend reports using Excel and SQL, reducing manual reporting time by 40%.
- Extracted, transformed, and analyzed ServiceNow ticketing data to support SLA and productivity insight using Excel Pivot tables.
- Led ad-hoc analysis for cross-functional teams, delivering actionable business intelligence for operations and client service teams.
- Contributed to ERP data integration by managing employee training data, improving data accuracy and reporting speed.
- Built a dynamic dashboard aggregating data from ServiceNow to track incident resolution trends and SLA breaches.
- Integrated drilldowns, slicers, and filters, enabling user-specific insights and reducing report turnaround by 40%.

Incident Manager | Wipro Technologies | Business Process Management (Genpact) | Gurugram, India

Jul 2020 – May 2022

- Improved incident resolution efficiency by 35% through streamlined coordination and data-driven escalation protocols.
- Maintained structured logs for root cause analysis and designed incident dashboards to identify trends and bottlenecks.
- Collaborated with stakeholders to ensure real-time incident reporting and communication, reducing escalations by 25%.
- Created training documentation and workflows, enhancing team readiness and reporting consistency.

System Administrator | Wipro Technologies | Pharmaceuticals (Novartis) | Hyderabad, India

Oct 2016 – Jul 2020

- Installed and configured enterprise software across departments, minimizing deployment delays.
- Developed and maintained system compliance reports, supporting audit readiness and documentation.
- Reduced system downtime by 30% through continuous performance monitoring and proactive issue resolution.
