

Resume

Martell Reed

Penn Hills, PA • [412.872.0491] • [Tell.Reed00@gmail.com] • [LinkedIn: Martell Reed] •

PROFESSIONAL SUMMARY

Analytical and detail-oriented data science professional with hands-on experience in Python, SQL, R, and machine learning. Skilled in data wrangling, exploratory data analysis, predictive modeling, and data visualization using Jupyter Notebooks, Pandas, NumPy, Matplotlib, and Seaborn. Completed multiple IBM Data Science specializations through Coursera, applying statistical analysis and model evaluation to real-world datasets. Adept at translating complex data into actionable insights and collaborating across teams to solve business problems.

TECHNICAL SKILLS

- **Programming & Analysis:** Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), R, SQL, Excel (Pivot Tables, VLOOKUP, advanced formulas)
- **Data Science & Machine Learning:** Data wrangling, EDA, regression, classification, clustering, model evaluation, predictive analytics
- **Visualization Tools:** Matplotlib, Seaborn, Tableau (introductory)
- **Databases:** MySQL, IBM Db2, SQLite
- **Development Tools:** Git/GitHub, Jupyter Notebooks, IBM Cloud

CERTIFICATIONS & SPECIALIZATIONS

- **IBM Data Science Professional Certificate** — Coursera (14-month program)
Python, R, SQL, data analysis, professional development — Completed July 2025
- **Applied Data Science Specialization (IBM)** — Coursera
Machine learning, visualization, applied projects — Completed July 2025
- **Introduction to Data Science Specialization (IBM)** — Coursera
R programming, deep learning, IBM Cloud — Completed March 2025
- **Select IBM Courses:**
Python for Data Science, AI & Development • Databases and SQL for Data Science with Python • Data Analysis with Python • Machine Learning with Python • Data Visualization with Python • Generative AI: Elevate Your Data Science Career • Applied Data Science Capstone • Data Scientist Career Guide and Interview Preparation

PROJECTS

SpaceX Launch Success & Recovery Analysis (*Capstone-inspired*)

- Analyzed SpaceX launch data to evaluate company growth over time, focusing on rocket success rates and base gear recovery outcomes.
- Cleaned and transformed datasets using Pandas; performed exploratory data analysis in Jupyter Notebooks.
- Created visualizations with Matplotlib and Seaborn to identify trends in launch success and recovery efficiency.
- Delivered insights on operational improvements and recovery advancements that correlated with increased launch success rates.

PROFESSIONAL EXPERIENCE

Auto Claims Adjuster — AAA Pittsburgh, PA 2019–2023

- Analyzed structured and unstructured claim data to determine outcomes, applying statistical reasoning and decision modeling.
- Collected, validated, and documented evidence, ensuring data integrity and compliance with industry standards.
- Collaborated with cross-functional teams to resolve complex cases efficiently.

Valet & Cashier Roles — Various Employers 2015–2019

- Managed high-volume transactions with accuracy and speed.
- Optimized workflows to reduce wait times and improve customer satisfaction.

EDUCATION

- **Community College of Allegheny County (CCAC), Pittsburgh, PA** — HVAC Certification
- **University of Akron, Akron, OH** — Coursework in Sports and Business Management (2018–2019)
- EPA Universal Certification
