

MARJORIE JEAN, BS, ACRP-CP
8123 Hudson Forest Drive · Charlotte, NC 28269
Phone: [C] (516) 472-8633 · Email: Marjorie.jean818@gmail.com

SUMMARY OF QUALIFICATIONS:

Highly motivated and detail oriented certified clinical research professional with over 10 years of experience. Robust team player, adept at working collaboratively with multidisciplinary teams and delivering high quality results.

EDUCATION:

Bachelor of Science
State University of New York at Old Westbury, NY 2013

PROFESSIONAL EXPERIENCES:

July 2024 – Present

Telix Pharmaceuticals – Remote
Sr. Clinical Trial Associate

- Assists Clinical Project Managers (CPMs) with Sponsor oversight, study specific documentation review and QC including review of ICF, study plans, study reference manuals, eCRF, etc.
- Assist with creation and maintenance of study metrics trackers, tools and reports.
- Assist in co-ordination and tracking of Investigator and third-party payments.
- Ensures required study documents are submitted to the study (electronic) trial master file ((e)TMF).
- Manage (e)TMF and study documents to meet GCP/ICH and internal guidelines for records retention.
- Assists CPMs with Sponsor oversight of CRO-held eTMFs periodic audit and findings resolution.
- Assists with customization of CDA, clinical site contracts & budgets.
- Assist CPMs and clinical team with Investigator Meeting coordination and activities preparation.
- Participated in CRO teams and in the onboarding of new CRO team members.

Jan 2022 – July 2024

Promontory Therapeutics, Inc – Remote
Clinical Trial Associate

- Accountable for planning, coordinating, and overseeing all operational activities required to manage the lifecycle of clinical trial samples. This includes oversight of samples collected at the study sites, shipments to the respective vendors for processing and testing, issuing sample queries, and final sample disposition.

- Performed monthly lab sample reconciliation across all vendors. Followed up with the CRO on findings and tracked protocol deviations along with site re-training.
- Provided monthly reminders to the CRO of upcoming and past due overall survival follow up phone calls and followed up on missing data that has not been captured in the EDC.
- Oversaw the review of the subject enrollment packets for completeness by cross-checking lab values against inclusion/exclusion criteria, ensuring all source documents were present and redacted.
- Led the initiative to create a tracking tool for pre-screening /enrolled subjects across France and the US. I managed and updated the tracker in real-time and provided weekly updates to the upper management team.
- Participated in study start up and site activation activities, which included CTA language and budget negotiations.
- Provided support to the finance team with quarterly reviews and reconciliation of site payments against the approved budgets.
- Responsible for providing direct approval for subject travel reimbursements.
- Collaborated with the data management team on cleaning activities for milestones e.g. (IB/DSUR, Interim analysis, abstract presentation, and site study close-out).
- Performed quarterly audits of the eTMF and provided a reconciliation report to the CRO for any missing and/or misfiled documents.

June 2020 – Jan 2022

IQVIA – Remote

Sr. Study Start-Up Specialist – Promotion

- Responsible for the quality and regulatory compliance of principal investigator credentials, essential documents, and Investigator Site Files during study start-up.
- Prepared and released regulatory document packets to sites and managed the review of regulatory documents for completeness.
- Oversaw the review of the clinical research sites informed consents and negotiated language through an acceptable IRB approved document.
- Managed study level Central IRB submissions and supported sites with their local IRB submissions.
- Provided biweekly updates to the internal team and Sponsor.
- Participated in Bid Defenses.

Sept 2019 – June 2020

IQVIA –Remote

Sr. Clinical Trial Associate

- Prepared, collected, and provided support to sites on essential document collection and maintenance.
- Coordinated the set-up, organization, maintenance, and close-out of the eTMF.
- Coordinated the quality control reviews (QC), final reconciliation and archival processes for study documents/plans and Trial Master File.
- Prepared and submitted central IRB submissions and addressed follow up questions from the IRB.
- Assisted Clinical Trial Managers with the development of Informed Consent Form

Template (ICF).

- Prepared Drug Release Authorization forms and collected required documentation.
- Responsible for maintaining study tracking databases/logs (i.e. Start-up, feasibility/site selection, Monitoring, vendor activities etc.)
- Coordinate tracking and uploading monitoring visit documents including Monitoring Visit Reports, confirmation/follow-up letters in TMF.
- Assisted the CTM with tracking of clinical trial agreements (CTA) with Investigator Sites.
- Performed data entry into electronic systems (i.e. CTMS)

Oct 2017 – Sep 2019

Celerion, Inc – Remote

Clinical Trial Associate

- Supported the project team by creating and distributing study materials, tools, and documents.
- Assist with preparation, planning, execution, and closeout of clinical trials.
- Managed the Trial Master File (eTMF) in accordance with the DIA model.
- Developed study tracking tools, composed meeting minutes and agendas.
- Tracked study milestones.
- Created and shipped Investigator site file binders to trial sites.
- Collection and review of site essential documents for completeness.
- Reviewed monitoring reports and ensured timely submission per monitoring plan.
- Coordinated local IRB/EC submissions and tracked progress to approval.
- Performed assigned administrative tasks to support team members with clinical trial execution.

Oct 2014 – Oct 2017
