

MOHAMMED FIROZE SHAIK

Software Engineer

Texas, USA | +1 640-252-7084 | firozedev@gmail.com | [LinkedIn](#)

SUMMARY

- Experienced Software Engineer with 3+ years of expertise in designing and implementing scalable, high-performance applications across diverse domains, including fintech and real-time systems.
- Proficient in building robust web applications using **Java, Spring Boot, JavaScript, Angular, and React.js**, delivering secure and efficient solutions.
- Skilled in **database management and optimization** with MySQL, PostgreSQL, and MongoDB, ensuring faster query performance and reliable data handling.
- Adept in developing and integrating **RESTful and SOAP APIs** with Swagger/OpenAPI documentation for seamless cross-system communication.
- Experienced in **cloud deployment and containerization** using AWS, Azure, Docker, and Kubernetes, enabling scalable and resilient architectures.
- Strong background in **CI/CD automation with Jenkins**, version control with Git/SVN, and Agile/Scrum methodologies, collaborating effectively with cross-functional teams.

TECHNICAL SKILLS

Front-End:	HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js (Redux, Hooks), Angular, Vue.js, Next.js, Bootstrap, Material-UI, Tailwind CSS, SASS
Back-End:	Java, Python, C++, C#, Spring Boot, Spring MVC, Hibernate ORM, Microservices, REST APIs, GraphQL, Node.js, Django, Spring Security (OAuth2, JWT, Keycloak, Okta), Kafka, RabbitMQ, Spring WebFlux, gRPC
Databases:	Oracle, MySQL, PostgreSQL, MongoDB (NoSQL), PL/SQL, Redis, Elasticsearch
Testing:	JUnit 5, Mockito, Jest, React Testing Library, Selenium, Cypress
Cloud & DevOps:	AWS, AWS Lambda Azure, Docker, Kubernetes, Jenkins, GitHub Actions, Azure DevOps, Terraform, OpenShift, OCI, ELK Stack (Elasticsearch, Logstash, Kibana)
Other Tools:	Git, GitHub, Bitbucket, SVN, Jira, Agile/Scrum, SDLC, Maven, Gradle, Ant, Swagger/OpenAPI, Postman, SonarQube, Prometheus, Grafana, CI/CD
Coding & AI Tools:	Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), Generative AI
Operating System:	Windows, Linux, macOS, Unix Shell Scripting

EXPERIENCE

PayPal, Texas |Software Engineer| Aug 2024 – Current

- Developed and optimized PayPal's Merchant Portal, integrating scalable fintech wallet features to securely process 100K+ daily transactions across multiple business outlets.
- Delivered a scalable Spring Boot-based microservices backend, enabling high-throughput API processing, seamless service-to-service communication, and integration with 20+ third-party services.
- Developed and optimized RESTful APIs with 99.99% uptime, supporting high-volume daily transactions and ensuring seamless business operations.
- Implemented a real-time payment system with Apache Kafka, processing thousands of transactions per minute with sub-second latency and delivering instant payment notifications.
- Engineered a PostgreSQL database schema that improved query performance by 60%, reducing data retrieval time from 2s to under 800ms.
- Containerized applications with Docker and deployed on Kubernetes, cutting deployment time by 70% and enabling auto-scaling to handle 3× traffic spikes.
- Built an advanced Customer Relationship Management (CRM) system that streamlined data consolidation and enhanced customer engagement efficiency.

- Designed and developed a responsive frontend using Angular and JavaScript, improving user engagement by 40% and reducing bounce rate by 25%.
- Utilized Git for version control and established CI/CD pipelines using Jenkins, automating testing and deployment processes for increased efficiency, and accelerating release cycles.

Deloitte, India |Software Engineer | May 2021 – Jul 2023

- Architected and implemented the frontend using React.js, creating a responsive and intuitive user interface that reduced user onboarding time by 30%.
- Optimized transaction processing with Hibernate and JPA, improving database query efficiency and increasing processing speed by 25%.
- Contributed to developing a mobile payment application for a leading financial services client, enabling secure transactions for 10,000+ merchants.
- Led the transition from a monolithic system to a Spring Boot-based microservices architecture, improving scalability, reducing query times by 30%, and accelerating feature deployment by 40%.
- Applied Redis caching, reducing database load by 40% and improving response times by 60% for frequently accessed data.
- Formulated and deployed optimized MySQL database schemas, improving data management effectiveness by 15% and increasing data accuracy by 32%.
- Enforced OAuth2 and JWT for secure authentication, reducing security vulnerabilities by 80% and ensuring GDPR compliance for 1 million+ user accounts.
- Leveraged AWS services, including EC2 for computing, RDS for database management, S3 for storage, and CloudWatch for monitoring, improving overall system performance.
- Centralized customer data to create a 360-degree view of interactions, improving personalized services by 20% and generating financial reports with JasperReports, boosting user engagement by 35%.
- Developed and maintained over 1,000 unit and integration tests using JUnit and Mockito, achieving 90% code coverage and reducing post-release bugs by 70%.
- Produced and managed API documentation using Swagger and OpenAPI, simplifying API consumption by frontend and third-party systems.

EDUCATION

Master of Science in Computer and Information Sciences

University of North Texas, Denton, Texas, USA

Bachelor of Technology in Information Technology

Gayatri Vidya Parishad College of Engineering, Visakhapatnam, Andhra Pradesh, India

CERTIFICATIONS

- Oracle Cloud Infrastructure Certified Architect Associate [\[Link\]](#)
- J.P. Morgan – Software Engineering Job Simulation (Forage) [\[Link\]](#)
- AWS Academy – Cloud Practitioner & Solutions Architect Training [\[Link\]](#)
- Oracle Academy Certified – Java Backend Developer – Spring Boot, REST APIs, Microservices [\[Link\]](#)
- Meta Front-End Developer Professional Certificate [\[Link\]](#)
- Scaler Academy Certified – SQL & NoSQL Database Systems [\[Link\]](#)
- IBM Certified – Docker Essentials: Containerization & Deployment [\[Link\]](#)
- Oracle Cloud Infrastructure Certified Generative AI Professional [\[Link\]](#)
- Cisco Certified – Cybersecurity Essentials & Networking Essentials [\[Link\]](#)
- Google Coursera – Systems, Networking & Programming Foundations [\[Link\]](#)
