

Mooyoung Oh

(240) 796-3056 | dhandand123@gmail.com

PROFESSIONAL SUMMARY

3x AWS Certified Software Engineer with 4+ years of expertise designing and deploying scalable Java/Spring Boot microservices and robust API architectures on AWS. Proven track record of modernizing legacy SOA systems using AWS CDK, achieving 20x performance improvements in data processing pipelines. Specializing in serverless computing, cloud migration, and CI/CD automation.

TECHNICAL SKILLS

- **Languages:** Java, SQL, JavaScript
- **Frameworks:** Spring Boot, REST API, Kafka
- **Cloud & DevOps:** AWS (Lambda, S3, API Gateway, CDK, IAM), GCP, Jenkins, Docker, CI/CD, Git, Infrastructure as Code
- **Databases:** MySQL, Oracle, DynamoDB (NoSQL)
- **Observability:** Splunk, Scouter APM, CloudWatch

EXPERIENCE

CSAA Insurance Company

Software Engineer

Dec 2023 - Present

Glendale, AZ

- Designed and deployed serverless AWS Lambda microservices orchestrating 350+ multi-provider API endpoints, serving millions of requests daily as the central backend layer for customer-facing web applications.
- Drove migration of 50+ legacy SOA/DataPower services to standardized AWS CDK-based microservices architecture, improving system maintainability and scalability.
- Authored comprehensive API documentation and established automated QA frameworks in Postman, reducing integration friction and enforcing SDLC best practices across downstream teams.

NGL Transportation Logistics Company

Software Developer

Jun 2022 - Apr 2023

Phoenix, AZ

- Developed resilient Spring Boot microservices for distributed logistics systems, enhancing API integration stability and backend reliability.
- Implemented Kafka streaming pipelines to support real-time AI/ML analytics, enabling immediate pattern recognition on truck and container data for rapid decision-making.
- Built internal REST APIs to aggregate Key Performance Indicator (KPI) data, powering automated analytics dashboards used for operational insights.

Psomagen Biotechnology Company

Software Developer

Jun 2020 - Feb 2022

Rockville, MD

- Engineered a modular Java-based Laboratory Information Management System (LIMS), integrating large-scale data processing libraries to replace a critical legacy platform.
- **Achieved 20x improvement in data processing throughput** by optimizing SQL queries and backend logic, reducing processing time for complex genomic datasets from days to under 12 hours.
- Enhanced system reliability and monitoring capabilities by integrating Scouter APM, directly supporting Quality Systems compliance.

EDUCATION

California State University, Monterey Bay

Bachelor of Science in Computer Science | Seaside, CA

Jan 2016 - Dec 2019

CERTIFICATIONS

- **AWS Certified Solutions Architect - Associate** | Valid Nov 2025 - Nov 2028
- **AWS Certified Developer - Associate** | Valid Sep 2023 - Sep 2026
- **AWS Certified Cloud Practitioner** | Valid Sep 2023 - Sep 2026
