PROFESSIONAL EXPERIENCE

SAP S/4HANA Finance Consultant

Aug 2024 – Present

General Motors | Atlanta, GA

- Delivered end-to-end S/4HANA Public Cloud Finance support — configuring GL, AP, AR, Asset Accounting, and Electronic Bank Statements (EBS) aligned with manufacturing business requirements.
- Led Central Finance (CeFi) integration between S/4 Public Cloud and ECC-based central finance system, ensuring seamless financial data flow across entities.
- Configured Product Costing and Cost Object Controlling to support manufacturing cost analysis, variance reporting, and month-end settlement processes.
- Utilized Universal Journal (ACDOCA) for reconciliation across FI/CO, improving accuracy in month-end close activities.
- Configured and supported Profitability Analysis (COPA) for margin reporting, enabling detailed analysis of revenue, cost, and profitability across manufacturing segments.
- Provided functional expertise on SAP financial processes — gathering and translating business requirements from finance stakeholders into SAP configuration and functional specs.
- Deployed SAP Fiori apps and custom CDS Views for real-time financial reporting, boosting end-user productivity and financial visibility.
- Designed financial dashboards in SAP Analytics Cloud (SAC) for forecasting, cost variance, and management reporting.

- Automated recurring journal entries using SAP Build Process Automation, reducing manual effort and errors by 30%.
- Supported tax automation with Vertex and strengthened audit readiness using SAP GRC Access Control.
- Collaborated with MM and SD teams to ensure seamless S/4HANA integration across Procure-to-Pay and Order-to-Cash processes.
- Conducted regression testing during quarterly upgrades and supported system enhancements and issue resolution.
