

Sobaan Azam

6308128004 | azamsobaan@gmail.com | Chicago, IL

Summary

Entry-level cybersecurity professional with hands-on experience in Netskope cloud security monitoring, policy review, and incident response support. Strong technical foundation from software engineering roles, with skills in log analysis, networking fundamentals, and secure cloud operations. Motivated to grow in SOC, security analyst, or cloud security positions.

Experience

Empathetic Solutions LLC | Chicago, IL

Cyber Security Analyst | 07/2025 - 11/2025

- Assisted with updating and maintaining Netskope security policies for a financial services client, including access controls and DLP rules.
- Monitored Netskope dashboards to identify policy violations, suspicious activity, and security alerts.
- Supported incident response by gathering logs, documenting findings, and escalating issues to senior analysts.
- Performed routine Netskope health checks to ensure proper agent connectivity and policy synchronization.
- Helped generate weekly security Threat & Risk Insight reports by summarizing key alerts and trends.
- Troubleshooted Netskope-related issues by reviewing user activity, validating configurations, and coordinating with IT/security teams.

American Association of Neurological Surgeons | Rolling Meadows, IL

Software Engineer (Contract) | 09/2024 - 06/2025

- Engineered a recovery process that restored 200+ critical scientific documents within 48 hours, enabling 2,000+ conference attendees to access essential resources.
- Automated validation checks to ensure recovered files were functional and accessible.
- Contributed to a mission-critical website launch by problem-solving under high-pressure conditions.

RAPP | Chicago, IL

Software Development Engineer in Test Intern | 06/2024 - 08/2024

- Added new features to an internal QA automation tool (React + Spring Boot).
- Reduced backend-to-frontend response times from 5+ minutes to real-time by migrating from REST polling to WebSockets.
- Collaborated with developers to troubleshoot issues and verify fixes during development cycles.

Skills

Cloud Security (CASB, SWG, ZTNA, DLP), Security Monitoring & Log Analysis, Incident Response (Entry-Level), Identity & Access Management (IAM Basics), Troubleshooting, Agile Methodology, Python, Scripting, SIEM, Jira, Confluence, Automation
