Academic Qualification

Trine University

3.9 | Jun 23 - Dec24

Masters in Information Science

KITS College of Engineering and Technology 3.3 | June18 - Jun 21 Bachelor of Technology

Objective:

To secure a challenging and rewarding position as a **Software Engineer** where I can leverage my strong analytical and problem-solving skills, combined with my knowledge of **SQL, Python, React JS, Salesforce, UiPath RPA, and data visualization tools**, to contribute to the success of a datadriven organization.

Skills:

Software Languages: React JS, SQL, Python,HTML,CSS

Advanced-Data Base Software Tools: Sales Force, UiPath – RPA. Data Mining and Data

Visualization Statistical Tools: MATLAB. Salesforce, UNITY

Administrator Cloud computing: Aws, MATLAB

Microsoft Tools: PowerPoint, Excel, Word, Outlook

Technical Certifications:

Sales Force Administrator

UiPath – RPA

Advanced Database

MATLAB

Data Mining and Visualization

AWS Certified Data Engineer

Python YAML

HTML

CSS

Experience:

MIRACLE SOFTWARE SOLUTIONS

Job Title: RPA Developer Intern

Aug 2024– Dec 2024

- Worked on real-time project, where I got completely involved in Automation and Process Documentation.
- I was part of the team which involved code deployment and maintenance.
- Worked on Automation using classic activities.
- Also worked on Intelligent Document Processing as part of project.

COGNIZANT TECHNOLOGY SERVICES

Job Title: Software Engineer

Jun 2022 – May 2023

Location: Chennai, India

- Assisted in developing and maintaining Python-based applications, ensuring code quality and efficiency.
- Wrote Python scripts to automate routine tasks, improving team productivity.
- Used Python libraries like Pandas, NumPy, and Matplotlib for data manipulation and visualization.
