

Param Sehrawat

New York City, NY | +1 732-858-3891 | psehrawa@andrew.cmu.edu | www.linkedin.com/in/paramsehrawat

Education

Carnegie Mellon University – Pittsburgh, PA

May 2025

Dual Bachelor of Science, Computer Science & Statistics and Machine Learning

Coursework: Computer Programming, Data Structures, Efficient Algorithms & Intractable Problems, Artificial Intelligence, Discrete Math and Probability Theory, Statistical Analysis

John P. Stevens High School – Edison, NJ

Jun 2022

High School Diploma, 3.97 GPA

Experience

ConEdison - NYC, NY

Android Developer

Jun 2022 – Aug 2022

- Developed full-stack applications across various platforms using latest industry-adopted technologies and frameworks.
- Played a key role in the development, improvement, and operation of web-based software.
- Gained hands-on expertise in Bootstrap, Foundation, Express and similar back-end Node.js as well as front-end presentation frameworks web application frameworks such as Aglie.js.
- Combine resources with Scrum team to contribute true work estimates.

Civic Wave - Newark, NJ

Junior Android Developer

Jun 2021 – Oct 2021

- Increased web traffic by improving navigation, creating dynamic media sections and adding social media plugins.
- Designed websites, portals and large-scale web applications for the organization to work on Android applications.
- Directed design, writing and production of page content to fulfill project demands and satisfy customer needs.
- Integrated third party forms, data, java back-end services and specialized content to personalize theme layout and arrangement.

Rutgers University – New Brunswick, NJ

Research Assistant

May 2021 – Jun 2021

- Spearheaded a transpiler and data processing pipeline that converts naturally spoken pseudocode into Python code, using semantic analysis in ANTLR and natural language processing in Java.
 - Managed software development with impediment logs and burndown charts.
 - Conceived a full-stack system architecture that provides real-time feedback on code complexity.
-

Projects

CFA Institute Research Challenge - New York City, NY

Equity Researcher

Sep 2020 – Jan 2021

- Performed relative (P/BV, P/E), residual income, and dividend discount modeling to value investment banks.
 - Developed Monte Carlo simulations and flexed macroeconomic indicators to model share price volatility.
-

Additional

Languages: Python, Java, C++, HTML, CSS, Node.js, Angular, React, Aglie

Technologies: AVD, Android Studios, Amazon Web Services, Jira, REST APIs, Design Patterns, System Design, Adobe Xd, Slack

Awards: Jane Street Estimathon (3rd place), Jump Start Hackathon (4th place), USA Computing Olympiad (Gold Division), American Computer Science League (40th rank, internationally), HackNYU (9th Place)
