

VYBHAVI PENUMARTHY

PowerBI Analyst |Business Data Analyst | SQL

 Frisco, TX

 +1 (346)-399-5683

 vybhavi.penumarthy@gmail.com

EXPERTISE

- Data Analytics
- PowerBI Dashboard Development
- Data Visualization
- Testing and Validation
- Python Programming
- SQL
- Business Process Analysis
- Business Requirements Gathering
- Data Mapping and Data Modeling
- Documentation of SOPS
- Training, Knowledge Transfer
- Business Analyst

EDUCATION

Master of Science In Cybersecurity
University of Houston
(2023-2025)

Bachelor of Technology
Jawaharlal Nehru Technological
University, Hyderabad India
Major: Computer Science an Engineering
(2017-2021)

SUMMARY

Vybhavi has 3+ years of experience in global environments as a business & data analyst focused on PowerBI and SQL. Currently working as a Data Analyst handling projects that involve PowerBI dashboard and report development, business process enhancement solutions, data analysis, data management, building PowerBI reports and dashboards, gathering data & business requirements and Issue resolution analysis.

An enthusiast in exploring skills of project management, team handling, mentoring and cross-functional data analysis. Experienced in translating business requirements into data-driven reporting solutions while working closely with technical and non-technical stakeholders.

Participated in may internship projects, college initiatives and IT projects.

Recognized for analytical thinking, structured problem-solving, and a proactive approach to continuous learning across both technical and business domains.

A collaborative team player with strong communication skills, and a consistent track record of improving processes and delivering high-quality outcomes. Grounded with a strong foundation in ethics, integrity, and continuous self-improvement, thriving in fast-paced, evolving technology landscapes.

Core & Skills

Technical Skills	Business Skills
Data analysis, EDA	Data mapping & Support Process Documentation
Data Modeling, Data Visualization	Business Requirement Analysis
Machine Learning, Predictive Modeling	Knowledge Transfer & Support
SQL Querying, Statistical Analysis	Reporting Requirements
PowerBI Dashboard Development	Testing & Validation

Tools:

Python, SQL, Excel	ServiceNow	Microsoft 365
Power BI, Power Query, DAX	R-programming	Git

PROFESSIONAL EXPERIENCE

Sloka Technologies, Inc **Software Data Analyst**

May 2025 - Current

- Developed and maintained PowerBI dashboards and reports by analyzing business requirements for new solutions, reports and resolving existing reports issues.
- Creating and maintaining detailed documentation for data processes and security workflows to streamline operations and ensure compliance with global standards.
- Collaboration with cross-functional stakeholders to map out end-to-end data flows and system workflows, identifying bottlenecks and areas for business process improvement.
- Participated in requirement sessions to gather business objectives and successfully translate them into reporting requirements, data models and functional specifications.

Accenture India **Support & Data Analyst**

Mar 2023 – Jul 2023

- Built SQL queries and PowerBI reports to analyze support ticket and operational data to identify recurring issues, perform root cause analysis, and contribute to an 18% reduction in recurring incidents.
- Connected and modeled SQL data sources to support root cause analysis on high-priority incidents reducing mean time to resolution through systematic triage and cross-functional escalation.
- Utilized Python to perform basic data analysis, data validation, and automate repetitive data-processing tasks, improving reporting accuracy and efficiency.
- Created and maintained SQL based detailed documentation for data conversions and data mapping, ensuring accuracy in downstream PowerBI reporting.
- Analyzed existing system processes to document "as-is" workflows and helped design optimized "to-be" technical architectures for AI and data initiatives.
- Experienced in presenting data findings, PowerBI incident reports, and project statuses to business team, ensuring alignment on project timelines and technical deliverables.

Accenture India **Junior Support Analyst**

Aug 2021 – Mar 2023

- Analyze business requirements, queried data via ServiceNow within SLAs. Other responsibilities include Tracking KPIs, identify resolution bottlenecks, and surface recurring incident trends across the support queue.
- Translating operational data into reporting insight.
- Used Python scripts for basic data cleansing, report validation, and analysis of operational datasets to support reporting activities.
- Knowledge Transfer (KT) sessions to onboard new analysts.
- Collaborated with cross-functional teams to investigate recurring issues, maintain reporting documentation, maintaining SQL based reporting documentation and version-tracked process updates to support improvement initiatives through data analysis.
