PROFESSIONAL EXPERIENCE

Bauhaus Group

August 2024 - May 2025

Business Intelligence Intern

- Engineered 5 automation pipelines in JIRA to automatically generate tasks and subtasks upon new project creation, streamlining workflow efficiency and reducing manual effort
- Constructed 2 interactive Tableau dashboards for real-time financial tracking, integrating MySQL-stored income and expense data at both project and company levels

Gallagher Bassett

June 2024 - August 2024

Business Intelligence Intern

- Implemented custom surveys in **Alchemer** and automated email distribution to stakeholders using **Power Automate**; boosted feedback response rate by 40% and cut manual follow-up time by 50%
- Generated 3 **PowerBI** reports and dashboards from the feedback data to analyze and improve the project performance

Quantiphi Analytics Solutions Pvt Ltd

January 2022 - June 2023

Senior Data Engineer

- Guided the data analytics team in enhancing **Tableau** dashboards, resulting in improved service to patients, doctors, and health systems; reduced patient wait times by 20% and increased data accessibility
- Designed data models and crafted 40+ **PostgreSQL** queries to efficiently manage data storage, retrieval, and updates, enhancing data management processes
- Developed a Python **AWS Kinesis** pipeline to transfer historical data from **Amazon Relational Database Service (RDS)** PostgreSQL to **AWS Simple Storage Service (S3)**, reducing storage resource usage by 20%
- Created and optimized 2 **AWS Glue** pipeline scripts to automate email alerts, enhancing communication efficiency by 30%
- Authored 2 **Terraform** scripts for **AWS EC2 Autoscaling** and implemented column-level security for **Redshift** tables

Data Engineer

- Built a **Hadoop** Discovery tool for Google by generating 50+ KPIs in **Python** to extract architectural information from tools such as **Hive**, **Hadoop Distributed File System (HDFS)**, and **Spark**
- Designed 5 **Looker** dashboards to analyze sports data and predict results based on player information
- Created 4 data migration pipelines using **DataFlow** and 5 COVID-19 dashboards for the Stanford School of Medicine to get real-time updates on patient information
- Built 4 Directed Acyclic Graph (DAG) scripts in **Google Cloud Composer** to extract, transform, and load (ETL) zipped data from API endpoints into **Google Cloud Storage (GCS)** buckets and **BigQuery** tables

EDUCATION

Masters in Information Systems - Business Analytics

August 2023 - May 2025

California State University, Fullerton, USA

Bachelors in Engineering, Computer Science

August 2016 - May 2020

Savitribai Phule Pune University, Pune, India

TECHNICAL SKILLS

- Programming/Query Languages:** Python, R, MySQL, PostgreSQL, LookML, HiveQL, Spark
- Cloud Services/Tools:** JIRA, Google Cloud Storage, Cloud Composer, BigQuery, Cloud SQL, Dataflow, Data Fusion, Airflow, Amazon S3, DynamoDB, Amazon Redshift, Amazon RDS, Amazon EC2, pgAdmin, Docker, Microsoft Azure, Power Automate
- Business Intelligence Tools:** Excel, Looker, Tableau, Data Studio, PowerBI

PROFESSIONAL CERTIFICATIONS

- AWS Certified Solutions Architect - Associate
- Google Cloud Certified Professional Data Engineer
- Google Cloud Certified Looker Delivery Professional
- Google Cloud Certified Looker LookML Developer

PUBLICATION

October 2019

- "Anomaly Motion Detection and Tracking for Real-Time Security System", Springer - Volume 4, Issue 10
Constructed a 2-stream predictive model using **Multiple Instance Learning (MIL)**, 3-D Convolutional Networks, **Artificial Neural Networks**, **Optical Flow**, and more to detect 13 types of video anomalies. This model significantly improved **anomaly detection**, achieving an Area Under the Curve (AUC) score of 90.37%.

LEADERSHIP AND AWARDS

- Trail Blazer and Avenger Award at Quantiphi
- Mentored and guided 25 interns to learn the Google Cloud Platform and attain Looker LookML certification
