

## PROFESSIONAL SUMMARY

Senior Data Analyst having experience in data pipeline development, machine learning, and business intelligence. Proven expertise in building ETL/ELT pipelines, optimizing data workflows, and enhancing decision-making through advanced analytics. Skilled in Python, SQL, Power BI, Azure, Alteryx, Qlik Sense, and SAP, with a track record of improving operational efficiency by 40% and prediction accuracy by 50%. Adept at leading cross-functional teams, implementing data governance, and delivering actionable insights through interactive dashboards and automated reporting systems.

## TECHNICAL SKILLS

- Programming Languages: Python (NumPy, Pandas, Matplotlib, Scikit-learn), SQL, R, SAS.
- Data Visualization: Power BI (DAX, Power Query), Tableau, Qlik Sense, Spotfire, Excel (Pivot Tables, Advanced Formulas).
- Big Data & Cloud: Azure (Data Factory, Synapse, Functions), AWS (S3, Redshift), Snowflake, Spark, Hadoop.
- Databases: MySQL, Microsoft SQL Server, SAP S/4HANA, Salesforce, PostgreSQL.
- ETL/ELT Tools: Alteryx, Azure Data Factory, SSIS, Informatica, Talend.
- Machine Learning: Predictive Modeling, Anomaly Detection, KPI Forecasting, Regression Analysis.
- Web Analytics: Google Analytics, Adobe Analytics, Mixpanel.
- Version Control: GitHub, GitLab, Jupyter Notebooks.
- ERP Systems: SAP, Salesforce, Oracle ERP.
- Certifications: Microsoft Certified Data Engineer, Microsoft Certified Data Analyst, Big Data with Spark and Hadoop, Google Advanced Data Analytics

## PROFESSIONAL EXPERIENCE

### Data Analyst (Project Coordinator), Carrier HVAC – Charlotte, USA

Jan 2024 – Present

- Designed and maintained Power BI dashboards for service contract performance, increasing data-driven decision-making by 20%.
- Automated repetitive SQL queries using Python scripts, saving 15+ hours of manual work weekly.
- Integrated Salesforce and SAP S/4HANA data, reducing reporting turnaround time by 25% and improving data accessibility for stakeholders.
- Optimized datasets in PowerApps, enhancing user experience and achieving 95% data migration accuracy.
- Conducted root cause analysis on data discrepancies across SAP and Salesforce, improving reporting accuracy by 30%.
- Built ETL workflows in Alteryx to classify service contracts (Evergreen vs. Non-Evergreen), reducing analysis time by 30%.
- Developed Qlik Sense dashboards to visualize customer service trends, improving service delivery efficiency by 10%.
- Analyzed customer data in Salesforce to identify trends, resulting in 10% more efficiency in service delivery and improved customer satisfaction scores.
- Created and validated files for Goods Receipts (GRs) in SAP S/4HANA, reducing errors by 40% and ensuring timely reversals.
- Automated data cleansing and transformation processes using Alteryx, reducing manual effort by 20 hours per week and improving data accuracy by 15%.

### Data Analyst, Sabnext Solutions – Wichita, USA

Jun 2023 – Dec 2023

- Implemented CI/CD pipelines for data infrastructure, reducing deployment time by 40%.
- Developed machine learning algorithms to predict KPIs, improving accuracy by 20%.
- Automated anomaly detection systems, cutting data discrepancy resolution time by 50%.
- Created interactive Qlik Sense dashboards for senior management, enhancing data-driven decision-making by 40%.
- Optimized ELT processes using Azure Data Factory, increasing data processing speed by 35%.
- Conducted data quality assessments, decreasing data anomalies by 30% and enhancing insights reliability.
- Simplified data governance processes, reducing data-related errors by 25% and ensuring compliance.
- Delivered training on data analysis best practices, boosting team proficiency by 30%.

### Data Analyst, QCode Software Solutions – Remote

May 2022 – May 2023

- Integrated machine learning algorithms into data pipelines, improving predictive analytics accuracy by 15%.
- Automated ETL processes using Alteryx, improving data processing efficiency by 35%.
- Designed Power BI dashboards for operational insights, increasing reporting efficiency by 30%.
- Reduced storage costs by 30% through a data retention strategy while ensuring compliance with privacy regulations.

- Worked with IT Security teams on audits, achieving 99.9% uptime on data systems.
- Conducted training in data visualization tools, raising team efficiency by 25%.
- Optimized data pipeline architecture, reducing processing time by 40%.

#### **Graduate Teaching Assistant, Wichita State University – Wichita, KS**

**Aug 2022 – May 2023**

- Mentored students in data analysis tools (Python, SQL, Power BI), improving their skills by 30%.
- Developed Python and SQL scripts for academic research, increasing data accuracy by 20%.
- Supported faculty in research projects, boosting research output by 20%.
- Organized workshops on Data Analysis Tools, improving students' skills by 30%.
- Graded and critiqued assignments, helping improve academic performance by 15%.
- Collaborated with faculty members in creating course content, increasing student engagement by 25%.
- Administered exams and managed proctoring, maintaining a 99% adherence rate to academic integrity standards.

#### **Senior Business Data Analyst, VassarLabs IT Solutions – India**

**Oct 2020 – Jan 2022**

- Implemented data governance policies, achieving 95% regulatory compliance.
- Automated ETL processes using Alteryx, improving pipeline efficiency by 35%.
- Developed custom dashboards, reducing reporting time by 30% and enabling real-time insights.
- Worked with IT teams to optimize database performance, reducing query execution time by 25%.
- Improved customer segmentation through a data-driven approach, increasing targeted marketing effectiveness by 15%.
- Conducted training in data analytics tools, increasing team competency by 20%.
- Initiated a data quality improvement program, reducing errors by 20% and improving decision-making accuracy.

#### **Business Data Analyst, VassarLabs IT Solutions – Hyderabad, India**

**May 2017 – Sep 2020**

- Managed end-to-end data lifecycle processes, reducing data latency by 20%.
- Enhanced predictive modeling accuracy by 15% through advanced analytics techniques.
- Delivered SQL optimization training, improving query performance by 30%.
- Implemented agile methodologies in project management, accelerating time-to-insight by 25%.
- Developed data governance frameworks, ensuring compliance and reducing errors by up to 20%.
- Led continuous improvement initiatives, increasing data operation efficiency by 10%.
- Maintained Qlik Sense dashboards, enhancing data transparency and stakeholder engagement by 25%.

#### **EDUCATION**

##### **Wichita State University, United States**

**Jan 2022 – May 2023**

Masters – Data Science | *GPA - 3.84*

##### **Birla Institute of Technology, India**

**Aug 2014 – May 2018**

Bachelor of Engineering – Electronics and Communication | *GPA – 3.67*

#### **CERTIFICATIONS**

1. Microsoft Certified Data Engineer
2. Microsoft Certified Data Analyst
3. Big Data with Spark and Hadoop
4. Google Advanced Data Analytics
5. Python for Data Science
6. SQL for Data Analysis
7. Introduction to ChatGPT and Generative AI
8. Data Analysis with ChatGPT

#### **KEY ACHIEVEMENTS**

- Improved operational efficiency by 40% through unique data solutions.
- Enhanced prediction accuracy by 50% using machine learning models.
- Reduced data processing time by 35% through optimized ETL/ELT pipelines.
- Increased data-driven decision-making by 40% via interactive dashboards.
- Achieved 95% audit pass rates through stringent data quality assessments.
