EXPERIENCE

Revature

Remote

Java Software Tester

Sept. 2024 - Dec. 2024

- Detected and reported 80% of system bugs, significantly improving application performance and reliability
- Collaborated with a team of 4, taking on the role of driver during peer programming sessions, fostering team growth and knowledge sharing
- Developed 80+ comprehensive test cases, ensuring detailed coverage of critical functionality and user workflow

Venture Global LNG.

Plaquemines Parish, LA

IT Intern

June 2023 - August 2023

- Troubleshooted 20+ mac devices within a week time frame, minimizing downtime of the workflow for several employees
- Assisted the project planning team with compiling a data table of over 90 mobile cranes on site and their efficiency
- Monitored and maintained the network infrastructure through proactive system checks

New York University, Pathways to AI

New York, NY

Machine Learning Intern

June 2022 - Dec. 2022

- Integrated Python with concepts in Calculus and Linear Algebra to design and implement several neural network models
- Utilized Google Colab to test machine learning models, ensuring scalability and reliability while monitoring performance for continuous improvement
- Explored various areas of study, which included Computer Vision, Natural Language Processing, Image Classification

PROJECTS

Planetarium App. (Java)

Nov. 2024

- Designed and executed 40+ manual test cases to ensure the functionality of features such as user account management and celestial body management
- Utilized Jira for defect tracking, test case management, and reporting
- Conducted manual, automated, and API testing across 3 agile sprints

Prime Bot (Python)

Mar. 2024

- Performed peer programming through Visual Studio Code while using git commands
- Utilized Figma to display the workflow of the application
- Integrated AI chat bot to replicated real responses of NFL players

SKILLS

Java, Python, SQL, HTML/CSS, Jira, Selenium, Junit, Maven, Postman, IntelliJ, AWS

CERTIFICATIONS

- **Sololearn Python Developer** Completed Jan. 2025
- **IBM DevOps Basics for Everyone** In Progress

EDUCATION

Dillard University, College of Arts and Sciences

New Orleans, LA

Bachelor of Science in Computer Science

May 2024

- Coursework: Artificial Intelligence, Database Management, Operating Systems, Algorithms
- Honors: Dean's List, Billy Ray Hobley Scholarship (2023)
