EDUCATION

The University of Texas at Dallas

Master of Science in **Business Analytics, Data Science Concentration**

Honors: **Scholar with High Distinction**

May 2024

GPA: 4.00

Chaitanya Bharathi Institute of Technology

Bachelor of Engineering in Electrical and Electronics Engineering

Jun 2021

GPA: 3.78

PROFESSIONAL EXPERIENCE

Infinics Inc.

Sep 2024 - Present

Data Analyst

- Analyzed 10M+ rows of retail data stored in Azure SQL Database using Databricks for scalable data processing and exploratory data analysis and crunched the data by creating data transformations to be used for further model building.
- Built forecasting models for forecasting weekly demand of a SKU by capturing patterns from intermittent time series data by using traditional forecasting models like Moving Average and ml techniques like XGBoost.
- Designed and developed interactive Power BI dashboards to visualize key metrics, such as sales trends and customer behavior, leading to a 20% improvement in operational efficiency.

The University of Texas at Dallas

Jan 2023 - May 2024

Graduate Teaching Assistant

- Mentored students in Prescriptive Analytics, Programming for Data Science, and Business Communications, enhancing technical proficiency in Python, SQL, Excel and Tableau.
- Conducted workshops on statistical analysis and machine learning models, guiding students through hands-on projects.

Accenture

Aug 2021 - Jun 2022

Business Analyst

- Performed statistical analysis on healthcare enrollment and claims data extracted from multiple sources using Python and SQL Server, applying data cleaning, feature engineering, and modeling methods, leading to 10% reduction in expenditure.
- Developed interactive KPI dashboards on Microsoft Power BI to visualize the trends and insights in real time.
- Collaborated with cross-functional teams to define business requirements, documented user stories and managed agile workflows ensuring timely delivery with Jira.

ACADEMIC PROJECTS

Credit Risk Modeling | Python | XGBoost | Neural Networks | SHAP Analysis

- Developed XGBoost and Neural Network models for credit default prediction, using PCA and GLM for feature engineering, achieving AUC of 89%, reducing defaults by 20%, and increasing revenue.
- Implemented SHAP analysis to interpret model predictions and understood feature importance.

Risk Analytics of Truck Drivers | Hadoop | Hive | Impala | Pig | Tableau | R

- Designed a Tableau dashboard using Hadoop, HiveQL, and Impala to monitor 5 Key Performance Indicators.
- Predicted the risk factors for drivers and enhanced risk analytics on truck drivers to identify the top 10 risky drivers, achieving a 15% reduction in monthly violations through data-driven insights from statistical tests and ANOVA in R Studio.

IBM HR Attrition Database Model | MySQL | MongoDB | Data Querying | 3NF Normalization

- Reduced data redundancy by 40% and improved data integrity by modeling the database schema in MySQL, and MongoDB achieving third normal form (3NF).
- Executed data querying and analysis, resulting in recommendations for HR decision-making and a 15% increase in employee retention rates.

SKILLS

Programming: Python (NumPy, Pandas, Scikit-learn), R, SQL

Machine Learning: Supervised and Unsupervised machine learning models, Neural Networks, TensorFlow

Statistical Analysis: Hypothesis Testing, Regression and Time Series Analysis, ANOVA, A/B Testing, Non-Parametric methods

Excel: Pivot Tables, VLOOKUP, Power Query

Data Management: MySQL, SQL Server, MongoDB, Oracle, Snowflake, Amazon Redshift

Data Visualization: Tableau, Power BI, ggplot2, matplotlib, Seaborn, Quick Sight

Cloud Technologies: Azure Databricks, Azure Data Factory, Microsoft Fabric, Azure Synapse Analytics

Certifications: Graduate Certificate in Business Intelligence and Data Mining, SQL Advanced – HackerRank, Hands-on Essentials – Data Warehouse (Snowflake), Alteryx Designer Core Certification, Tableau Essential Training from LinkedIn.

VOLUNTEER EXPERIENCE

- Active member of the Data Science Club, UTD, and Vice President of IEEE Power and Energy Society (PES), CBIT.
