Relevant Coursework: Data Visualization, Business Analysis, Hybrid & Relational Databases, Machine Learning

Tennessee State University

Bachelor of Science in Biology

May 2025

Nashville

May 2020

Nashville

PROFESSIONAL EXPERIENCE

Oak Ridge National Laboratory

DATA SCIENCE INTERN | NNSA-SPONSORED INTERNSHIP

Jun 2025 - Present

Oak Ridge, TN

Selected for a highly competitive internship focused on modernizing environmental data management systems.

- Assessed and improved regulatory reporting workflows, enhancing efficiency and accuracy in Microsoft Access-based systems while refining SQL queries for better data cleaning and validation.
- Collaborated with cross-functional teams to enhance data integrity, develop comprehensive technical documentation, and support reporting efforts.
- Strengthened data analysis capabilities and process optimization, resulting in improved critical thinking and effective communication with stakeholders.
- Evaluated relational database options to enhance performance, security, and scalability by integrating a SQL Server backend with a Microsoft Access front end, optimizing workflows and QA/QC validation processes.

Assuaged Foundation

DATA ANALYST INTERN

Sep 2024 – Aug 2025

Remote

Optimized marketing strategies by analyzing social media engagement with Google AdSense and Google Analytics.

- Facilitated cross-functional communication via Slack, enhancing coordination and decision-making for improved project alignment and timely task completion.
- Designed and implemented interactive dashboards in Google Data Studio to visualize trends and support data-driven decision-making.
- Streamlined project workflows on Monday.com, improving efficiency and team productivity by 10%.

Data Glacier

DATA SCIENCE INTERN

Aug 2024 - Mar 2025

Remote

Gained hands-on experience in Python, data wrangling, and data management

- Developed interactive Power BI dashboards, enhancing data accessibility and decision-making for stakeholders
- Conducted statistical analysis on real-world datasets to identify trends, presenting findings.
- Trained in Agile frameworks, model analysis, deployment (on-prem/cloud), calibration, and monitoring, improving project efficiency and results presentation

Enterprise Rent-A-Car

CUSTOMER SERVICE REPRESENTATIVE

Jun 2023 - Sep 2024

Nashville, TN

Streamlined customer transactions and increased satisfaction scores.

- Verified and documented driver information and payment methods, ensuring accurate and efficient transaction processing
- Managed financial transactions, including payments, security deposits, and refunds, which improved financial accuracy and customer trust
- Handled customer inquiries and resolved conflicts, enhancing customer satisfaction and loyalty

SKILLS

- **Professional Skills:** Project Management, Documentation, Data Visualization & Reporting, Research, Presentation Skills, Cross-functional Collaboration, Leadership, Oral & Written Communication, Problem-Solving, Critical Thinking, Adaptability, Organized, Detail-Oriented, Innovative & Analytical
- **Technical Skills:** Excel, SQL, Relational Databases, Python, Statistical Software, PowerBI, Tableau, Google Data Studio, Data Analysis & Modeling, Bash & Version Control, Data Management & Warehousing, Predictive Modeling & Machine Learning,
