PROFESSIONAL EXPERIENCE

Data Analyst, Rochdale Village Social Services Inc., Jamaica, NY. September 2025 - Present

- Manage and analyze NYC Aging PeerPlace and Vive database systems for senior client records, ensuring **100% data integrity** and compliance with NYC Aging, NYS contractual, Federal, and HIPAA documentation standards.
- Reduce data entry errors by 95% by implementing structured validation protocols, standardized data governance procedures, and secure access controls across program staff.
- Develop predictive forecasting models using Python and Power BI to project five-year active client growth and program performance, informing strategic budgeting and staffing decisions.
- Conduct advanced analysis of client financial and demographic data (income levels, age distribution, housing status, service utilization patterns) to identify underserved populations and optimize outreach strategies.
- Design and deploy SQL queries and Power BI dashboards to track KPIs, program outcomes, service utilization trends, and compliance metrics, improving ad-hoc reporting turnaround time by 40% and supporting grant funding initiatives.
- Generate daily, monthly, quarterly, & annual performance reports to monitor service delivery & regulatory compliance.
- Deliver executive-level data visualizations, written reports, and presentations to senior leadership, translating complex analytical findings into actionable program recommendations.
- Manage website data content and analyze social media engagement metrics to enhance community visibility and data-informed outreach efforts.

Data Analyst, Brooklyn College, Scholarships Office, Brooklyn, NY. August 2024 - September 2025

- Manage and update a database of 600+ scholarships and awards, improving data accuracy by 99%, which enhances decision-making and reporting.
- Increased database management efficiency by 25% by integrating advanced statistical analysis techniques and trend analysis to optimize scholarship and award data for over 15,000 students.
- Develop automated reports and dashboards, improving transparency and data accessibility in scholarship and award allocations, enhancing efficiency by 20% and aiding stakeholders in data-driven decisions.
- Collaborate with stakeholders to clean and optimize databases for budgeting and billing, ensuring accurate financial transactions and timely scholarship disbursements.
- Perform data reconciliation to identify and resolve discrepancies across NextGen Scholarship Manager and CUNYFirst, ensuring the correct billing and distribution of scholarships and awards.
- Lead browser automation using Python to streamline student account creation and data entry processes in the web-based scholarship management system, reducing processing time by 50%, minimizing errors, and enhancing workflow efficiency.

Budget and Social Media Analytics Analyst Intern, DWAA Connect, Brooklyn, NY. May - August 2024

- Improved gross margin by 32% by developing a 5-year financial forecast model, creating budgets for travel experience programs, conducting cost-benefit analyses, and maintaining expenditure controls to ensure efficient resource allocation and compliance.
- Increased social media ROI by 25%, follower growth by 30%, and engagement by 40% through data-driven trend analysis and strategic reporting across Facebook, Instagram, and TikTok.
- Utilized Google Analytics to analyze website performance, improving conversion rates by 20% and reducing bounce rates by 15% through generating actionable insights for the digital marketing team.

Project Engineer, Prkalp Energy Vertical Pvt Ltd, Mumbai, India. June 2018 - July 2022

- Increased proposal acceptance rates by 40% and reduced project timelines and cost overruns by 25% by leading requirement analysis, cost estimation, and proposal development for 500+ projects across approximately 100 clients.
- Managed ≈ \$40M worth of projects, boosting profitability by 10% through strategic budget analysis and resource optimization.
- Reduced project risks by 25% and improved financial forecasting accuracy to 95% by implementing comprehensive risk mitigation strategies and conducting detailed risk and profit potential analyses.
- Improved team collaboration and productivity by 20% by Leading full-cycle project management and coordinating with cross-functional stakeholders (7-8 team members) for effective communication and documentation.
- Enhanced client satisfaction by 30% and improved delivery timelines through proactive project monitoring, effective pre/post-bid surveys, and regular client engagement across 150+ projects.
