EDUCATION

Master of Science in Computer Science

Stevens Institute of Technology, Hoboken, New Jersey, USA

Sept 2022 - May 2024

CGPA: 3.835/4

Bachelor of Engineering in Computer Science

Dayananda Sagar College of Engineering, Bangalore, Karnataka, India

Aug 2018 - May 2022

CGPA: 8.45/10

TECHNICAL SKILLS

Programming Languages: JavaScript, Typescript, Python, Java, SQL

Web Technologies: React, Node.js, Next.js, Express, HTML5, CSS, REST, Redux, GraphQL, SASS, Gulp, WebSockets

AI and Language Technologies: OpenAI (GPT), LangChain, Claude, NLTK, spaCy, Gensim, BERT

Databases: MongoDB, Redis, Firebase, PostgreSQL, DynamoDB

DevOps Tools: AWS, Git, Docker, Jenkins, Jest, Jira, Postman

Certifications: AWS Certified Developer – Associate (Amazon Web Services, Apr 2024)

PROFESSIONAL EXPERIENCE

Software Engineer Intern

Vercel | Remote (Vancouver, WA)

March 2025 – Present

- Developed secure and user-friendly **authentication systems** using **React**, **AWS Cognito**, **Amplify**, and **React Context API** for a **virtual concert platform**.
- Engineered and delivered smooth, high-quality **live streaming experiences** on the main consumer website by integrating **AWS Elemental MediaLive** with **AWS Lambda** and **DynamoDB**, enabling **real-time video streaming** and dynamic fan interactions.
- Constructed responsive, user-friendly web application **UI components** for the **artist website** using **React**, **HTML**, and **CSS (Tailwind)**, enhancing artist interaction and content management capabilities.
- Established **scalable, production-ready infrastructure (CI/CD, S3, AWS CloudFront)** supporting both artist and consumer platforms for high-quality code releases and seamless content access.

Software Developer

fulfils.me | Remote (Baltimore, MD)

Aug 2024 – Feb 2025

- Integrated **AI-powered solutions** for generating candidate compatibility scores using **Python** and **FastAPI**, facilitating efficient data exchange between **backend services**.
- Improved AI response accuracy by fine-tuning input **prompts** for more contextually relevant results.
- Developed **REST APIs** and utilized **Redux** for consistent, reliable data flow between the backend and React frontend.
- Created reusable **React** components with **TypeScript**, keeping the app's design and features consistent.

Software Developer Intern

Project Insulin | Remote (Cambridge, MA)

Sept 2024 – Feb 2025

- Developed an interactive **chatbot** using **React** and **JavaScript** for the **frontend** to assist users with common queries, enhancing user engagement and streamlining support services.
- Implemented **backend** functionality with **Python**, integrating with **NLP** libraries to provide accurate and contextually relevant responses.

PROJECTS

Full-Stack Quote Generator App

Dec 2023 - Feb 2024

- Developed a responsive web application using **Next.js** and **Material-UI**, with **dynamic content integration** including Google Fonts and custom animations.
- Implemented backend logic in **Node.js**, generating images and quotes via **API calls** and leveraging **AWS services** (Amplify, Lambda, DynamoDB) for infrastructure, authentication, and data storage.

SchedEz - Event Scheduler

Sept 2023 - Dec 2023

- Developed a **scheduling web application** using the **MERN stack** (MongoDB, Express, React, Node.js) and integrated technologies such as **Redux**, **Firebase**, **Redis**, and **ImageMagick**.
- The application's user-friendly interface and **collaborative scheduling** capabilities simplify the process of adding events, classes, and other activities, allowing users to construct schedules based on specific days and time intervals, coordinate, manage and **share events** effectively.

Edpad - Education Platform for Students

Jan 2023 - May 2023

- Developed an **online learning management system** like **Canvas** that provides students with a user-friendly and efficient way of managing their learning experience with additional features like **quizlets**, supporting self-directed learning and review.
- Edpad enables students to **register** for courses, **access** current semester classes, **download** materials, **submit** assignments, and engage with **feedback** through **comments** and surveys.

HONORS & ACTIVITIES

- Nationally ranked swimmer; represented **India** in **swimming** at the **Maccabiah 2017 Games** in **Israel**.
