

Roy Karam | Conyers, GA 30013 | 770-680-9368 | Roykaram1234@gmail.com

Professional Summary

Dedicated and detail-oriented professional seeking an internship that fosters creativity in Java development and client service. Experienced in bookkeeping, cybersecurity, networking, and cloud infrastructure, with strong technical and communication skills.

Education

Clayton State University – B.S. in Cyber Security

January 2021 – Spring 2026

Georgia Piedmont Technical College – A.A.S. in Computer Information Systems

April 2017 – April 2020

Experience

Bookkeeper | C&R Financial Services

January 2017 – Present

- Managed bookkeeping for 12+ clients, including transaction coding and reconciliation.
- Recorded and analyzed financial data using Sage 50 and Excel.
- Processed payroll, electronic deposits, and employee pay adjustments.
- Maintained accurate records for bank and investment accounts.
- Prioritized and completed multiple tasks efficiently in a dynamic work environment.

IT Intern / Junior Automation Consultant—D&K Suit City,

Atlanta, GA (Hybrid) | 2024–2025

- Built production-grade automations across Zapier, Shopify Flow, and Google Sheets to parse Shopify orders into structured, SKU-level rows for daily operations and reporting.
 - Designed a canceled-items reporting pipeline and post-cancellation handling in Shopify Flow; removed “Order Protect” line-item noise and enforced store-tag → SKU mapping integrity.
 - Developed a low-rating Google review alert concept to notify stakeholders and accelerate customer response times.
 - Authored SOPs, runbooks, and job aids; standardized multi-match and loop patterns to reduce manual work and errors.
 - Partnered with store operations to triage data issues, validate edge cases, and improve reliability/observability of automations.
-

Skills

- Java, JavaScript, Python
- Microsoft Excel
- Sage 50 Accounting Software
- Algorithm Development & Pseudocode
- Photoshop & Visual Design
- Tax Forms & Checks
- Fluent in Arabic

Certifications& Licenses

- Introduction to Artificial Intelligence (AI) – IBM
- CEH (v12) Practice Projects and Exam Simulators – LearnKartS
- Cybersecurity Assessment: CompTIA Security+ & CYSA+ – IBM
- Ethical Hacking Fundamentals – LearnKartS
- Generative AI: Introduction and Applications – IBM
- Generative AI: Prompt Engineering Basics – IBM
- Basics of Cisco Networking – LearnQuest
- Oracle Cloud Infrastructure Foundations – Oracle
- System Administration and IT Infrastructure Services – Google
- Google IT Support Specialization – Google
- Technical Support Fundamentals – Google
- IT Security: Defense Against the Digital Dark Arts – Google
- Automate Cybersecurity Tasks with Python – Google
- Tools of the Trade: Linux and SQL – Google
- Foundations of Cybersecurity – Google
- Sound the Alarm: Detection and Response – Google
- Assets, Threats, and Vulnerabilities – Google
- Strategies for Cloud Security Risk Management – Google Cloud
- Play It Safe: Manage Security Risks – Google
- Connect and Protect: Networks and Network Security – Google

Accomplishments

- Proficient in Oracle Cloud Infrastructure, holding the OCI Foundations certification and implementing real-world solutions such as
 - Automating administration tasks with OCI CLI and Python.
- Monitoring and incident response using OCI Logging and Alarms.
- Completed academic simulations of breach scenarios with response workflows. (Clayton State University, 2024; Oracle Cloud Infrastructure Foundations, June 2025)
- Strong foundation in relational databases and SQL:
 - Designed normalized multi-table schemas with ER models.
 - Implemented CRUD operations and enforced referential integrity.
 - Developed secure, structured databases for simulated business environments. (Clayton State

University, 2024)
