OBJECTIVE

Analytical and detail-oriented Business Analyst with 4 years of experience transforming data into actionable business strategies through strong cross-functional collaboration, data analysis, and reporting. Proficient in SQL, Excel, Python, and BI tools like Power BI, Tableau, and Looker. Adept at requirements gathering, KPI development, and presenting insights to stakeholders to drive informed decision-making and business process improvements. Seeking to leverage both technical acumen and business understanding to contribute to high-impact initiatives.

SKILLS

- Business Analysis: Requirements Gathering, Stakeholder Engagement, KPI Development, Process Mapping
- Data & Reporting: SQL, Excel (PivotTables, Power Query), Power BI, Tableau, Looker
- Problem Solving: Root Cause Analysis, Operational Efficiency, Forecasting, Cost Reduction
- Data Analytics: Data Modeling, Data Visualization, A/B Testing, Dashboard Design
- Tools & Technologies: JIRA, Git, Azure Data Factory, dbt, Snowflake, MS SQL Server
- Soft Skills: Communication, Cross-functional Collaboration, Agile/Scrum, Documentation

PROFESSIONAL WORK EXPERIENCE

Tata Consultancy Services, Data Analyst

March 2022 – June 2025

- **Optimized Supply Chain Data:** Modeled and transformed data from diverse sources to support in-depth supply chain analysis, utilizing SQL, Python, and Databricks to ensure data quality and integrity.
- **Requirement Gathering:** Collaborated with business stakeholders and product owners to define business needs, functional requirements, and reporting goals for supply chain initiatives.
- **SQL Optimization:** Conducted performance tuning and query optimization, reducing processing time by 25% through indexing, partitioning, and denormalization.
- **Data-Driven Insights:** Performed complex data transformations in SQL and Python to support operational dashboards and analytics use cases.
- **Collaboration and Monitoring:** Worked with cross-functional teams and system owners to monitor ETL pipelines and dependencies. Applied Agile methodologies to contribute to defect-free, on-time delivery during release cycles.

Mashey, Analytics Consultant

July 2021 – November 2021

- **Client Data Analysis:** Conducted data audits and source-to-target mapping across 4+ data sources, improving the accuracy and reliability of reporting and analysis.
- **Dashboard Development:** Gathered reporting requirements and performed gap analyses to build advanced Looker dashboards visualizing key business metrics (KPIs).
- **Stakeholder Engagement:** Led stakeholder discussions to ensure business requirements were captured accurately, resulting in the timely and accurate delivery of analytical reports.

OpenSesame, Sales Data Analyst Intern

July 2020 – May 2021

- **Real-Time Sales Metrics:** Partnered with sales and BI leadership to define key metrics and develop real-time sales performance reports, influencing quarterly revenue strategies.
- **Process Automation:** Automated renewal analysis and monthly upsell reviews using Python and Excel, reducing manual effort and improving operational efficiency by over 50%.
- **Campaign Effectiveness:** Analyzed marketing campaign performance and customer behavior, delivering actionable insights that shaped targeting and messaging strategies.

EDUCATION

MS in Business Analytics, The University of Texas at Dallas, TX

May 2021

Relevant Courses: Data Visualization, Database Management Systems, Predictive Analytics, BA with R, Statistics and Analysis, Data Warehouse

Bachelor of Engineering in Computer Science, University of Nagpur, India

May 2019

Relevant Courses: Business Intelligence, Database Management Systems, Data Science, Problem Solving
