

Ruthwik Reddy Elaganti

BUSINESS ANALYST

California, USA | (640) 250-5054 | ruthwik0404@gmail.com | [LinkedIn](#)

SUMMARY

- **4+ years of experience** as a **Business Analyst**, specializing in digital transformation, process optimization, and regulatory compliance in the **banking, insurance, and healthcare sectors**.
- Strong experience in **Agile environments**, actively participating in daily standups, backlog grooming, sprint planning, and **User Acceptance Testing (UAT)**, ensuring timely and quality delivery.
- Created and maintained comprehensive documentation including **BRDs, FRDs, SRS, use cases, user stories, and test plans**, ensuring clarity and alignment with business objectives.
- Leveraged tools like **SQL, Tableau, and Power BI** to perform data analysis, generate insights, and create dashboards that supported data-driven decision-making.
- Utilized tools such as **Figma, MS Visio, and Balsamiq** to create wireframes, process flow diagrams, and prototypes, effectively communicating design concepts to stakeholders.
- Strong knowledge of **ERP, CRM, and BPM tools** like **SAP, MS Dynamics, Salesforce, and Visio**, with hands-on experience in integrating these tools with enterprise systems to streamline workflows.
- Experienced in designing test cases, managing **UAT processes**, and conducting testing cycles to ensure that delivered solutions meet business requirements and are free of defects.
- Demonstrated ability to **conduct GAP, Cost Analysis, and Impact Analysis**, identifying opportunities for process improvement that resulted in enhancements in operational efficiency.

SKILLS

Data Analysis:	Excel, SQL, Python
Methodology:	SDLC, Agile, Waterfall, Kanban, Lean Six Sigma
Documentations:	BRD, FRD, SRS, BPMN, User stories, Use Cases, Test Plan, User Guide
Project Management Tools:	Jira, Confluence, Trello, MS Project, MS Excel, MS SharePoint, Primavera
Visualization Tools:	Tableau, Power BI, Qlikview
UML and prototyping Tools:	MS Visio, Smart Draw, IBM Rational Rose, Balsamiq mock-ups, Sketch
Business Analysis	Cost/Benefit Analysis, Impact Analysis, GAP Analysis, Risk Analysis, SWOT Analysis
ERP Planning & CRM:	SAP, MS Dynamics Nav, Salesforce, HubSpot
Technical Skills:	KPI, User Acceptance Testing (UAT), Alteryx, Requirement gathering, Google Analytics, Data Analysis, MS Visio, Joint Application Development (JAD), MS Office, User Story creation, Software development & testing, Data Modelling, Database Knowledge, Business Intelligence (BI) Tools, Process Mapping, User Experience (UX) Understanding, Quality Assurance (QA) Knowledge, Prototyping
Soft Skills:	Business Intelligence, Stakeholder Engagement, Requirements Gathering, Time management, Leadership, and management, Problem-solving, Negotiation, Decision-Making, Documentation, and Presentation, Verbal communication
Operating System:	Windows, Linux, Mac iOS

PROFESSIONAL EXPERIENCE

Humana, FL

Jan 2023 – Present

Business Analyst

- Led the integration of **healthcare claims data into SAP ERP**, improving claims processing efficiency by 40%, by mapping claims data and ensuring seamless integration with existing enterprise systems.
- Conducted **requirement gathering sessions** with business stakeholders, ensuring alignment of claims processing needs with SAP ERP functionalities, resulting in a **30%** reduction in requirement ambiguity and improved clarity.
- Documented detailed **business requirements (BRD) and functional requirements (FRD)** for system integration, ensuring comprehensive coverage of all key business processes and reducing implementation errors by **25%**.
- Utilized **SAP tools and SQL** for database query optimization, improving data extraction time for claims data by **20%**, contributing to faster decision-making and enhanced reporting.

- Improving accessibility to critical information and insights by designing and implementing interactive dashboards and reports in **Power BI and Salesforce CRM Analytics** with actionable KPIs for various levels of corporate management.
- Designed and developed **data models** for claims data mapping, ensuring accurate and efficient data flow between legacy systems and SAP ERP, achieving 98% data integrity during integration.
- Created and maintained **process flow diagrams (BPMN) and data flow diagrams (DFDs)** to visualize the integration process, ensuring stakeholders understood system interactions and reducing onboarding time for new team members.
- Collaborated with cross-functional teams (IT, Operations, and Healthcare Services) to identify integration gaps, leading to a 30% improvement in cross-departmental collaboration and quicker issue resolution.
- Led **User Acceptance Testing (UAT)** for SAP ERP system integration, managing over 50 test cases and ensuring the system met business requirements, resulting in a **98%** pass rate during the final testing phase.
- Optimized **data mapping** processes using SQL and SAP tools, resulting in a **25%** reduction in data inconsistencies and improving the accuracy of claims processing.
- Implemented process improvements based on **Lean Six Sigma principles**, reducing manual intervention in the claim's integration process by **30%**, leading to faster processing times.
- Monitored and tracked integration performance metrics using **SAP dashboards** and reporting tools, providing stakeholders with real-time insights into data accuracy and processing efficiency.
- Conducted **risk analysis** on potential integration roadblocks, mitigating 90% of data-related risks before they impacted system functionality, ensuring smooth project delivery.

Capgemini, India Business Analyst

Jul 2019 – Dec 2021

- Analyzed and cleansed 500,000+ customer records from the legacy **CRM system using SQL and Excel**, identifying data inconsistencies and gaps, resulting in a **20%** improvement in data quality for customer engagement in **Salesforce**.
- Conducted requirement gathering workshops with **15+ business stakeholders** (banking managers, marketing, customer service) to document Business Requirements Documents (**BRD**) and Functional Requirements Documents (**FRD**), ensuring alignment with Salesforce CRM capabilities, and reducing project ambiguity by **25%**.
- Created over 30 detailed **User Stories** and collaborated with the development team to manage the backlog using **Jira**, increasing project delivery speed by **15%** and ensuring feature prioritization in line with client requirements.
- Mapped current banking processes using **BPMN (Business Process Model and Notation)** to identify operational bottlenecks in customer service workflows, resulting in a **25%** reduction in processing time for customer queries post-Salesforce integration.
- Performed **GAP Analysis** of the existing CRM system and Salesforce's functionalities, identifying 40+ gaps, resulting in customized Salesforce features that optimized client onboarding, improving customer acquisition by 20%.
- Led **User Acceptance Testing (UAT)**, executing 50+ test cases to validate Salesforce CRM features such as lead tracking, account management, and customer communication logs.
- Integrated **Salesforce CRM with HubSpot** for marketing automation, enabling seamless lead nurturing and automated email campaigns, which improved marketing campaign conversion rates by **25%**.
- Conducted risk management workshops to assess the impact of potential CRM system failures and designed mitigation strategies, resulting in a 0% production downtime during the Salesforce CRM rollout and post-deployment support.
- Automated CRM reporting workflows using **Excel VBA macros and Power BI**, cutting reporting time by 35% and improving accuracy in weekly customer engagement reports delivered to senior management.
- Collaborated with 10+ banking managers to customize the Salesforce customer 360 view, improving customer insights and increasing customer satisfaction by 20% due to better-targeted communication strategies.
- Led process mapping sessions using **MS Visio**, documenting over 100+ business processes, including client onboarding and customer issue resolution, which improved onboarding efficiency by 25% following Salesforce CRM adoption.
- Performed a comprehensive **cost-benefit analysis** for implementing Salesforce CRM, calculating a 50% ROI within the first year, driven by increased customer retention (15%) and improved operational efficiency (20%).

EDUCATION

Master of Science in Engineering Management

Texas State University, Texas, USA

Bachelor of Technology in Computer Science and Engineering

Chaitanya Bharathi Institute of Technology, Hyderabad, India
