SUMMARY

I have **4+ years of experience** as a **QA Analyst** on various domains. I have manually tested Mobile Application, Web Applications and DATA testing. Documented and Tracked defects in the defect tracking tools like JIRA and Confluence. Performed Smoke, Regression testing of various Web and Mobile Applications. Found effective bugs during testing and tried to make applications more accurate for customers satisfaction.

TECHNICAL SKILLS

- **Testing:** Manual/Automation Testing, Software Development Life Cycle (SDLC), Agile Methodologies, Acceptance testing, Regression Testing, Integration Testing, API Testing, Mobile Application Testing, Jira, Basics of Selenium, iOS Testing, Web App Testing, Cloud-Based Software Testing, Release Sign-Off
- **Languages:** C, C++, Python, PHP
- **Web Technologies:** XML, HTML, CSS, JAVASCRIPT
- **Database:** MYSQL, MS SQL Server, Oracle
- **Software Tools:** MS Office
- **Operating Systems:** Windows, Linux, iOS
- **Technical Platform:** Salesforce, JIRA/Confluence, API Postman, Jenkins

WORK EXPERIENCE

Red Violet (NASDAQ:RDVT), Boca Raton

July 2021-Current

Quality Assurance Analyst

- Verified system integration with **Salesforce, NetSuite and CyberSource**
- Verified security and functionality of **system API** calls using Postman
- **Manually tested** mobile applications, data test, website, and GUI
- Designed/Developed **automated smoke tests** to verify system condition after releases
- Identified system bugs via Black-Box, Exploratory, Regression, and Stress tests
- Generated **JIRA tickets** and step-by-step bugs for systems requirement and expected behavior failures
- Created detailed Bug reports using **JIRA and Confluence** to Track Release Versions, QA Process and Test Plans
- Verified/analyzed bug and authored reports in JIRA with steps/videos/screenshots to reproduce bugs
- Generated end-of-day report for test case pass/fail and new bug reported
- Assisted with testing pass for mobile App and Web App

Einfochips an Arrow company, Ahmedabad, India

June 2018-June 2019

Quality Assurance Engineer

- Expertise in preparing the **Test Plan, Test Cases, Test Data** and release notes based on the client requirements and design documents

- **Developed** efficient **test automation code** and **manually tested** various applications
- **Designed and developed** various software applications in **C language**
- Worked with quality experience team to define and plan test strategy
- Worked in **AWS using C++, AWS S3 service**
- Worked in design and development **SQL database schema** for storing information.
- Worked on **MongoDB, MySQL** databases which differ from classic relational databases
- Developed high-quality solutions for client using **HTML, JAVASCRIPT, JQuery, JSON and XML**

EDUCATION

Charotar University of Science and Technology, Anand, India

M.Tech-Dept. of Computer Engineering-April 2019, CGPA: 8.18/10

Gujarat Technology University, MBICT, Anand, India

B.Tech- Dept. of Computer Engineering-May 2017, CGPA: 7.79/10

ACADEMIC PROJECTS

Title: IoT Enabled Wearable Camera

- Different technologies used in this application like **C, C++, PHP, and AWS**.
- Worked on **WPA_SUPPLICANT** to connect to different device via hotspot.
- Worked on **S3 service in AWS using C and C++**.
- **Tested manually** different **hardware devices** like Battery Monitoring IC, LED Controller, WiFi+Bluetooth module.

Title: Real Estate Application for Single Builder

- This application was designed using **JAVA, PHP, JSON** and **MySQL** database.
- Worked on **MySQL and XAMPP** web server to create database and storing the information into database.
- Also **worked on Design the application** using different **modeling diagram**.
- Applied **different types of testing** like **integration testing, unit testing and API testing** for this mobile application.

Title: Online Railway Reservation System

- Web application was designed using **HTML, CSS, ASP.NET** and **MySQL** database.
- Used **XAMPP web server** using **PHP** for Database.

ACHIEVEMENTS AND PUBLISHERMENTS

- Secured **second position** in **logothron event** at college techfest (2015).
- Published a **research paper** on Real Estate Application for Single Builder in **International journal (IJSRD)**, in April 2017.
- Published a **research paper** on IoT Enabled Wearable Camera for Emerging Application World in **International journal (IJANA)**, in May-June 2019.

CERTIFICATION

- SQL for Data Science in Coursera
