WORK EXPERIENCE

Emergency Care Research Institute (ECRI)
Alerts Data Analyst Intern

Philadelphia, PA
June -August 2023

- Analyzed large datasets to identify trends and patterns, contributing to the development of actionable alerts for healthcare institutes and medical device provider's clients. Built engaging dashboards on Power BI to convey valuable insights
- Reducing processing time by 40% and improving accuracy by 50%. Utilized Power BI and Excel for analysis and visualization
- Increased data accuracy and trust of alert data by participating in the implementation of data quality assurance processes.
- Designed and developed management insights (MI) dashboard to track key performance indicators to derive actionable insights.

Drexel University
Graduate Teaching Assistant

Philadelphia, PA
January -June 2023

- Under Prof. AJ Raven responsible for aiding students at the undergraduate level in Management Information System assignments by grading assignments and creating solutions for the students to study.
- Designed and enabled the use of diagrams in Lucid Chart, resulting in 100% comprehension in students.
- Delivered lectures, conducted tutorials, and delivered one-on-one mentoring to ensure knowledge of core subjects.
- Conducted more than 50 tutorials, workshops, and review sessions focused on key concepts and practical applications in MS Excel, Python, and SQL, resulting in a 20% increase in student comprehension and performance.

ASK Innovation
Social Media Analyst, Intern

Indore, India
June – August 2021

- Created a data set of potential sellers and buyers for an e-commerce firm and managed over 6 websites, Apps, and accounts (Indorse App and Website, LinkedIn, Twitter, Instagram, Facebook).
- Offered recommendations for customer and seller retention using predictive analysis. Maintained market position through Google Analytics Insights.

ACADEMIC EXPERIENCE

Churn Rate Analysis for a Telecom Service Provider (Tableau)

February 2023

- Developed analysis on churn rate and offered recommendations to minimize the loss by 30%.

Compass Maritime Service, a Harvard Business Review Case Study (R Studio)

October 2022

- Estimated ship bid price using multiple Linear Regression models and recommended ship bid price. The p-value was used to identify a group of significant features, and the R-squared value was used to test the model's efficiency.

Sentiment Analysis and Text Mining (Python)

September 2022

- Extracted the Drexel student Co-op data using text mining, sentiment analysis, and pre-processing to recommend what employers are looking for. Used Python's lemmatization, slicing, and stemming functions.

CERTIFICATIONS

- Python Core + Advance, Online School of Programming
- Excel Crash Course, Corporate Finance Institute
- Database and SQL, Online School of Programming
- Python Course from Basic to Advance, Udemy

LEADERSHIP EXPERIENCE

OGE Volunteer

Dec 2019 - Feb 2020
